NQ. 81

CHURCH WORK IN CANADIAN WEST

MEN NEEDED FOR MISSION FIELD

Principal Lloyd of Saskatoon
Speak at Church Congress
at Middlesborough

London, Oct. 4.—This year's meeting of the Church Congress, being held now at Middlesborough, promises to rank as one of the most successful in recent years. Archbishop Lang, of York, who a few years ago, when Bishop of Stepney, declined the archbishopric of Montreal, is president.

Last night the congress discussed the duty of the church to the empire at large.

Principal Lloyd, of Saskatoon, made an interesting suggestion that the archbishops should order that after 1915 no clergyman should be inducted to an English benefice who had not served at least two years in some colonial mission. A great statesman had said that whereas the Nineteenth Century was that of the United States, the Twentieth Century belonged to Canada, and in far less time than it had taken for the United States to reach \$5,000,000 the people of Canada would maintain 100,000,000. The duty of the Church of England to Canada was not to Canadians properly so-called, or to the older provinces, but to those gigantic provinces of the West which, for the purpose of settlement, had so largely come into our hands within the last ten years. What was done or not done in the next ten years, said Principal Lloyd, was of vital importance to the tone and character of the Anglo-Saxon race developing so fast in Western Canada. So far as one might judge by the rapidity of growth, the increase of wealth and the independence of character, that population would not present itself as a missionary problem ten years from now, but as a business proposition. There was, he said, no field in the world where the Church of England could invest her missionary offerings with the certainty that the need would come rapidly to an end and the hope that reproduction would begin earlier.

This meeting of the congress dealt mainly with home industrial problems, such as the decline of the birth-rate and national insurance. Prominent also was Welsh disestablishment. Speakers on this subject said little new, and Archbishop Lang remarked that while a non-established church might work well in a new country, it did not follow that they should uproot an establishment where it already existed. He appealed to Liberal churchmen in the congress to speak in favor of establishment, but none were forthcoming.

The Western Canada Trust has subscribed \$1,250 to the Archbishop's Western Canada fund.

MEXICAN WAR FUND.

President Authorized to Float Loan—
Government's Failure to Suppress
Revolt Criticized.

Mexico City, Oct. 4.—The chamber of deputies voted last night to authorize the president to float a loan of twenty million pesos for a new war fund. That the senate will approve this step, there is no doubt.

The scene in the chamber during the last hour of the session was one of great disorder.

Bitter criticism of the government's failure to suppress the revolution characterized the debate, which lasted several hours. The measure left the deputies the alternative of authorizing or making an appropriation. Favoring an appropriation if possible, the minister of finance, Ernesto Madero, made a statement. He said there was available only 10,500,000 pesos. The treasury contained 19,500,000 additional, but this must be retained to guard the exchange.

NORTH WATERLOO ELECTION.

Liberal and Socialist Candidates Will
Oppose Conservative.

Berlin, Ont., Oct. 4.—Both the Liberal and Socialist will contest North Waterloo against the Conservative candidate at the bye-election on October 23. The Liberal candidate will be chosen next Wednesday, while the Socialists, at a well-attended meeting last night, nominated Matthew Wayman, of Toronto, a Socialist organizer for the province, to put up a Socialist fight. They plan to hold meetings at every polling division in the riding.

DARING ROBBERY.

Vancouver, Oct. 4.—Three thugs yesterday afternoon assaulted and robbed George Day in broad daylight and within a few yards of the rear of the police station. Day was walking along the C. P. R. tracks at 4:15 o'clock towards the North Vancouver ferry landing, when three men leaped upon him, overpowered him and beat him so badly that he nearly lost consciousness. They then ran through his pockets and took \$35 which they found there. It was one of the most daring robberies which has ever been perpetrated in Vancouver.

HARBOR IMPROVEMENTS.

St. John, N. B., Oct. 4.—A determined effort is to be made by city commissioners and the board of trade to have the harbor of East St. John greatly enlarged by having the location of the breakwater in Courney bay changed from the north of Little river to Read Head. The position nearer the mouth of the bay would almost double the capacity of the harbor and would add greatly to the value of the work which is being carried on there.

ACCEPTS HALIFAX CALL.

Toronto, Oct. 4.—Dr. Lloyd, vice-president of Trinity College, Toronto, has accepted the appointment as canon residentiary and vicar of All Saints' cathedral, Halifax, and will take up his work there about the middle of November.

BRITISH MERCHANTS SEEK REDRESS

TO SUBMIT EVIDENCE TO TRADE COMMISSION

British Columbia Company
Law Among Matters to
Receive Attention

London, Oct. 4.—The Canadian section of the London Chamber of Commerce has elected J. C. Colmer to succeed the late General Laurie as chairman. It was decided to submit evidence to the royal commission of trade, which commences sitting at an early date, with special reference to the stringent regulations of the provincial company laws.

Among the questions considered were company law in British Columbia and other provinces, the bankruptcy laws in the provinces and the Dominion and the unsatisfactory portion of British firms trading in Canada owing to the import duty being charged on the selling price of the articles instead of under the buying price.

In regard to this subject, L. Spomers and W. K. George, of the Toronto Board of Trade, expressed the desire of the Canadian traders to assist in the redress of grievances which were detrimental not only to British companies but to all concerned in Canadian trade.

BRITISH DOCTORS MEET CHANCELLOR

Protest Against Financial Pro-
visions of National In-
surance Act

London, Oct. 4.—The doctors affected by the National Insurance Act sent a delegation to wait upon Mr. Lloyd George, chancellor of the exchequer, yesterday, in an endeavor to have some of their grievances righted.

The delegation protested strongly against the financial provisions of the Insurance Act, which, they stated, were unjust and unfair. The chancellor promised to confer with the cabinet on the matter at the earliest possible date.

RESERVISTS ORDERED TO JOIN COLORS

Railway Strike Situation in
Spain Serious—Duke of
Saragossa Offers Services

Madrid, Oct. 4.—All the Spanish reservists who left active service during the last six years yesterday were summoned to rejoin their colors, and thousands of men who ordinarily would not have been called to join their regiments until March also were expected to report for duty.

The decree is regarded as showing that the government considers the railroad strike serious. The mobilization orders include government railway employees. Thousands of strikers and prospective strikers thus are brought under the military law.

Spain is probably the only country in the world which possesses a dual strikebreaker. The Duke of Saragossa telegraphed the government to-day offering to run a daily express train from Madrid. The offer was accepted. The Duke is an expert locomotive engineer and has often driven King Alfonso's train. Other prominent men have offered their help against the strikers.

FOURTEEN BLOCKS DESTROYED.

Kankakee, Ill., Oct. 4.—Kankakee's business district was swept by fire yesterday. Fourteen business blocks were destroyed. The fire started in the new Remington theatre.

SUBMARINE SUNK BY ATLANTIC LINER

FOURTEEN OF CREW LOSE THEIR LIVES

One Officer Saved—Boat Cut
in Two During the
Manoeuvres

Dover, Oct. 4.—The British submarine B-2 was run down by the Hamburg-American liner Amerika here yesterday. It sank at once, drowning fourteen of the crew.

The disaster, in which the submarine was sunk, occurred while the third patrol flotilla of six submarines was manoeuvring off the coast of Kent. The liner Amerika appears to have cut the B-2 in halves.

Lieut. Richard I. Pulleyne, second in command, was the only man among the crew of fifteen to be saved.

He was found floating in the sea, too exhausted to say more than that "the submarine is cut in two. I went down a mile."

No sign of the wreckage was discovered.

This is the sixth disaster to British submarines, each of them involving the loss of from ten to fifteen lives. Lieut. Percy B. O'Brien was the commander of the B-2.

OUTBREAK FEARED.

Commander of Troops at Foo Chow
Defies Provincial Authorities.

Amoy, Oct. 4.—The inhabitants of Foo Chow, the capital of Fukien province, are fleeing from the city in fear of outbreaks among the troops under the command of General Pung. He has an army variously estimated from ten to twenty thousand with him and openly defies the provincial authorities.

THREE WILL BE EXECUTED.

Halifax, Oct. 4.—Three brothers, Alfred, Fred and Harry Graves, will be hanged here on January 15 next for the murder of Kenneth Lee near Fort William in June. The brothers, while intoxicated, started a quarrel with Lee. One of them struck him with the butt of a pistol which was discharging, mortally wounding Lee.

RETURNING TO CANADA.

London, Oct. 4.—Sir E. Ward, of the war office; Sir Robert Perks, several Australian officers and all the Canadian officers remaining here, attended Col. Sam Hughes at his departure for Canada from Euston station to-day, heartily cheering him as the Liverpool train left the platform.

The rest of the Canadian party leaves on October 30, and meantime continue their inquiries at Aldershot, Woolwich, etc., into military affairs.

MILLIONAIRE ON TRIAL FOR MURDER

Lumberman is Accused of
Shooting City Detective at
Aberdeen, Wash.

Aberdeen, Wash., Oct. 4.—Why J. S. Creach shot City Detective Frank Welch on the night of June 2 was the point the prosecution sought to have argued in the trial of the millionaire lumberman for first degree murder, in the superior court at Montesano yesterday.

Fifteen witnesses were heard for the state, eighteen more are yet to be heard and a number are subject to call to the stand before the defence can open its case. The case is apparently working toward sensational disclosures, and the court room is packed.

The strongest testimony for the state was given by W. A. Rupp, publisher of the Aberdeen World; Mrs. Rupp, and W. L. Ballard, Mrs. Rupp's uncle, business manager of the World, and it was toward them that the force of the action was directed. Their testimony concurred. The Rupp residence is within a stone's throw of the Creach home, and every word said after the shooting was audible, Rupp testified.

The following scene, he said, was enacted after the murder. When Mrs. Creach heard the shots fired she came to the back door, saw her husband in the light and exclaimed: "My God, papa, what have you done?"

"I have killed a man," answered Creach, and then he called out again: "I have murdered a man and I will have to spend the rest of my days in Walla Walla."

Mrs. Creach, who was by this time half hysterical, called for help and wanted to know if something could not be done.

heard the shots, asserted they were several seconds apart.

Chief of Police Templeman testified as to the good character of City Detective Welch, who was shot in quick succession. The state endeavored to prove that they were not. Dan Pearson, a lawyer, and L. Bousfield, mill owner, who live Welch and recalled Welch's reluctance in being detailed on the work of watching the Creach home.

A new phase leading up to the killing of the detective was gleaned to-day when Attorney John T. Welch for the defendant made his opening statement to the jury. Welch said the defence would place Mr. Creach on the stand and that he would admit the shooting of the detective, but that the attack would prove to be accidental. The reason the detective was called to the Creach home the night Welch met his death, according to Attorney Welch, was because the women folks arrived home from downtown and found a window in the dining room open and fearing someone was in the house, they called for the detective.

Detective Welch came to the house and after going through the Creach home, went into the yard, where he was shot by mistake by Creach. The defence says it will also prove Creach came home, not to surprise his wife, but to collect money due him from a Pacific lumber agency.

WARM CAMPAIGN IN MACDONALD

Many Speakers in Field on Be-
half of the Rival
Candidates

Winnipeg, Oct. 4.—The election campaign in Macdonald is warming up in earnest. With polling taking place in one week the constituency is filled with orators and canvassers on both sides.

Dr. Clark, M. P. of Red Deer, Alberta, will spend next week in the riding on behalf of R. L. Richardson, Liberal candidate. A number of well-known men from Quebec are here now working among the twenty-five hundred French voters in Macdonald on Mr. Richardson's behalf. They include A. Geoffrion, Gus Boyer, M. P. L. J. Gauthier, M. P., and Charles Querry. Hon. Frank Oliver is working hard for Mr. Richardson.

Hon. Robert Rogers will give his first address on behalf of the Conservative candidate to-night, but it is understood he will not touch on the C. P. R. stock issue. Hon. Mr. Roche is not here yet, though announced in the Conservative list of workers.

The constituency is flooded with literature and both sides are recognizing the importance of the contest by putting forth their best efforts.

TWO FALL 500 FEET TO DEATH

Aeronaut and Boy Killed When
Big Parachute Fails
to Open

Tescumbia, Ala., Oct. 4.—H. C. Pelly, aeronaut, and Lorenzo Howland, 15 years old, were killed here yesterday when a parachute failed to open. A dangling rope caught the arm of young Howland as the balloon ascended. The boy hung on until 500 feet up, when both fell to their death.

Howland had disentangled himself, and with the balloon pitching and tossing got down to the tangle on the parachute. Immediately after he gained a hold on a rod, Pelly cut loose and the two shot downward, but the big parachute never opened and the two occupants were dashed to the ground in a shapeless mass.

HAVOC WROUGHT BY FLOODS IN ALASKA

Mining Properties Damaged—
Washouts Interrupt Rail-
way Traffic

Seattle, Wash., Oct. 4.—Cable advices from Cordova, Alaska, say much damage has been done in the Copper River district by heavy rains and floods of the last few days. The Copper River and Northwestern railroad is tied up by washouts, and the repair crews have been unable to make any progress. One crew, cut off from its supplies, is subsisting by killing birds and cutting timber for firewood.

Labor is scarce and orders have been sent to Seattle for additional men. It is feared it will be necessary to shut down the Bonanza mine and press the men into railroad repair service.

The Den Creek mining property near Bonanza, owned by Stephen Birch, is a total loss, the flood rushing down the mountain having wrecked the buildings and covered the sluice boxes with six feet of water. The greater part of the season's cleanup was in the boxes, and the loss will be heavy. During September 49 inches of rain fell at Cordova.

DID NOT ASK FOR CONTRIBUTIONS

COL. ROOSEVELT'S EMPHATIC DENIAL

Former President Testifies Be-
fore Committee Investigat-
ing Campaign Funds

Washington, D. C., Oct. 4.—"I asked no man to contribute to the campaign fund when I was elected president of the United States, and I wish to reiterate that Mr. Bliss and Mr. Cortelyou both assured me that no promise had been made as a return for any contribution. Neither they nor anyone else having authority asked me to act or to refrain from acting in any matter while I was president because any contribution had been made or withheld."

"Gentlemen, could I put it more sweepingly?"

In these words Col. Roosevelt summarized his testimony to-day at the close of the first part of his hearing before the Clapp committee of the Senate investigating campaign funds.

The colonel specifically denied that he ever asked for contributions to his 1904 campaign fund, or that he had known of any contribution by J. P. Morgan.

To those unequivocal statements Col. Roosevelt added again that he had ordered the return to the Standard Oil Company of any contribution it had made in 1904, that he had been assured by George B. Cortelyou "only yesterday" that he knew of no such contribution; and that he did not believe Cornelius N. Bliss had ever demanded a contribution from John D. Archibald or from any corporation by any methods of extortion.

Col. Roosevelt did not deny that corporations had contributed to the 1904 campaign. He said his letters and published statements had always admitted that fact, but he specified that no such contribution had ever been obtained under any suggestion that the administration would reward the givers with special favors.

Col. Roosevelt's testimony bristled with characteristic statements.

"Senator Penrose should be driven from the Senate," he declared, "because of his acknowledged friendship with the Standard Oil interests. Charles H. Hilles and Congressman Bartholdt should be forced to prove their statements that Roosevelt's primary campaign fund this year had amounted to \$3,000,000 or \$4,000,000 or should be driven out of public life," said the Progressive candidate for president.

Seats had been reserved in the committee room by Chairman Clapp for George Field, Australian high commissioner and Lady Field, who had been Roosevelt's hosts abroad.

Colonel Roosevelt learned this morning that Governor Hadley of Missouri had declared in favor of President Taft. He would make no comment upon the governor's action, nor would he express an opinion upon the re-nomination of Congressman Sulzer as Democratic candidate for governor of New York.

BUSINESS FAILURES IN THE DOMINION

Returns for Nine Months Show
Decrease in Defaulted
Liabilities

Montreal, Oct. 4.—Although commercial failures in the Dominion of Canada as reported to R. G. Dun & Co. were more numerous during the first nine months of 1912 than in either of the two years immediately preceding, there was a numerical decrease as compared with both 1909 and 1908, while the amount of indebtedness involved was the smallest for any similar period back as far as 1906.

Total insolvencies numbered this year 1,203, against 947 in 1911 and 935 in 1910, whereas the \$7,782,828 of defaulted liabilities contrasted with \$10,607,081 and \$11,938,632 respectively in the two earlier years, against \$14,924,296 in 1911.

The increase in manufacturing defaults were not so prominent, though the number of failures was 2,339, against 2,544 last year, while the liabilities were over \$4,000,000 greater, being \$65,993,312, against \$61,333,065.

In the corresponding nine months of 1909 there were 1,968 business suspensions for \$9,115,774, and in 1908 the record was 1,221 for \$11,828,356.

The present exhibit for the manufacturing class is particularly satisfactory, the two hundred and thirty-four defaults that occurred being fewer than the 237 reported in 1911, and also below those in 1909, 1908 and 1907, while the \$2,519,754 of liabilities showed a falling off in comparison with every year since 1905.

In trading occupations there was a numerical increase over both of the two immediate preceding years, 744 failures against 625 and 714 respectively in 1911 and 1910, but the mortality in this respect was a good deal lighter

than in 1908, and aggregate indebtedness was the smallest back to 1907.

The division embracing agents, brokers and similar concerns supplied a considerable growth in number of insolvencies, which totalled forty-five or the largest for many years past, but the amount of indebtedness involved, though heavier than in either 1911 or 1910, was far lighter than in 1909 and also below the total in 1908.

BURNED TO DEATH.

Woodstock, Ont., Oct. 3.—Harry Batterson, a workman living on Water street, was fatally burned when his house took fire early this morning. He was alone in the house and had probably arisen and got a lamp which fell when the man dropped it in a fit. He was subject to epilepsy.

PANAMA CANAL TOLLS QUESTION

MAY BE SUBMITTED TO U. S. SUPREME COURT

President Taft Says Great
Britain Would Not Lose Right
to Demand Arbitration

London, Oct. 4.—In another message through the Times's correspondent on the Panama dispute, President Taft explains that his proposal to bring it before the Supreme Court was preferable, because an adverse decision would be less galling to Americans than an arbitration award, and Great Britain would still not lose her legal right to demand arbitration.

In an editorial the Times considers President Taft's explanation very satisfactory, as removing apprehension that an appeal to the Supreme Court was being offered as a substitute for the right of appeal to The Hague, but that it still leaves the whole matter in a confused condition.

The Times asks: "Would not the difficulty be further aggravated in the event of the Supreme Court upholding the validity of President Taft's reading of the Hay-Pauncefote treaty and The Hague court giving a contrary verdict?" and therefore still hopes that the president will agree to direct reference to The Hague should diplomacy be unable to solve the difficulty.

STATE CONTROL OF COAL MINES

Advocated by President of
British Labor Federation
Convention

London, Oct. 4.—At the conference of the labor federation at Swansea yesterday, President Smillie, in his opening address, made a very important announcement to the effect that the mine owners were now better off than they were before the recent strike.

While legislation had added six to eight cents per ton on the cost of coal production, declared the chairman, prices had risen 36 to 48 cents per ton for coal.

The only way to protect the public in instances of this kind, concluded the speaker, was for the government to take control of the industry and introduce state control.

SCORES OF MINERS JOIN IN STAMPEDE

Rush to Secure Claims on
Concession Opened on Do-
minion Creek

Dawson, Y. T., Oct. 4.—The Crueger concession on Dominion Creek was opened by the Dominion government yesterday. Scores joined in the stampede beginning at midnight. As many as fourteen posts were driven on a single claim. Each staker gets an equal interest.

The Treadgold Company has begun the construction of a large ditch on Lower Dominion Creek to wash the muck from the claims. In connection with this enterprise it is costing millions to work Dominion Creek with dredges.

Close of upper Yukon navigation is near. Only four more White Pass steamers are scheduled to sail this season for White Horse. Two or three independent boats will also probably sail and two or three boats from Fairbanks will go to the foot of Lake Lebarge and winter so as to be ready to carry cargoes and passengers to lower river points as soon as the river opens in the spring.

MUST PROVIDE LARGER MARKET

SIR WILFRID LAURIER SPEAKS AT CHATHAM

Declares Reciprocity Would
Increase the Field of
Trade

Chatham, Ont., Oct. 4.—The transportation and marketing of the great grain crops of the west was declared last night by Sir Wilfrid Laurier to be the big question before the people of Canada. The former premier spoke at two meetings last night, one in the armory and one in the skating rink, in both of which he strongly advocated reciprocity.

A torchlight procession escorted Sir Wilfrid from his hotel to the meeting. With him were four of his former ministers, Hon. S. Fisher, Hon. G. P. Graham, Hon. C. Murphy and Hon. McKenzie King. F. P. Pardee, M. P., A. B. McColg, M. P., and Duncan C. Ross, M. P., also occupied prominent positions on the platform.

Sir Wilfrid in opening his address declared himself as staunch a Liberal as ever, still a disciple of Liberalism as taught in the northland by Charles James Fox, by Daniel O'Connell, by John Bright and by Gladstone.

"What is the chief problem before the Canadian people?" asked Sir Wilfrid during his address. "Unquestionably it is the disposal and the marketing of the grain crop with which Providence has blessed us. It is not as large as we expected because heaven has been weeping for a month, I think, over the mistake the Canadians made."

"Sir Wilfrid was ready to agree that the home market was always the best market, and his policy in office had been shaped to that end, he said, by facilitating communication between one part of the country and another. The St. Lawrence channel had been deepened, railways had been assisted and another transcontinental railway projected. Sir Wilfrid charged that the Jordan government was not carrying out the building of the transcontinental railway, but was increasing the grades and decreasing the efficiency."

Next to the home market, Sir Wilfrid regarded the British market as highest in value. He cited the establishment of the British preference as indicating Liberal efforts to increase this field of trade. Canada's example in this had been followed in all the other overseas dominions. Sir Wilfrid repeated a rumor that had come to him that the British preference would be tampered with, and promised a "dilly fight" if such a move were made.

Great as was the home market and the British market, these were not sufficient, he argued, and it is because of this that reciprocity is needed.

"While they have rejected the prayer of their western fellow-citizens, the problem is still there," said Sir Wilfrid, and will have to be dealt with. The people of the west want a larger market for their products, and the government of the day has to acknowledge this."

Sir Wilfrid said the Liberal government had gone to Washington to get better terms for handling western grain over the American railroads. Their successors had been faced with circumstances too strong to be resisted and "had to pocket their pride and go humbly to Washington to get a special rate on their wheat from Winnipeg to Duluth."

Sir Wilfrid denied that the Jordan government had accomplished anything in its first year in office. They had simply been drifting, he said. For twelve months they had been trying day in and day out to frame a naval policy, and "fighting like cats and dogs over it."

Reference was made to the memorial advocating that the navy be made a non-party question. That memorial, he thought, should be sent to the waiting Conservative factions rather than himself. He would see his hand wither before he ever uttered a word that would in any way appeal to the prejudices of the people. He discharged his duties as leader in the light of those British principles of which he had been the exponent for forty years. To the end of his days he would seek to discharge properly his duties as a Canadian and as a British subject.

Three cheers were given for Sir Wilfrid at the conclusion of his address, which lasted an hour.

Proposed Convention.
Toronto, Oct. 4.—Hon. C. W. Cross, attorney-general, and Hon. Duncan Marshall, minister of agriculture, representing the government of Alberta, had a conference with Sir Wilfrid Laurier during his stay here with a view of securing his consent to attend Liberal convention gatherings in the three western provinces of Saskatchewan, Alberta and British Columbia.

The Liberals of these provinces are planning to co-operate in what Mr. Cross describes as a series of "real, wide-open western conventions, where the people will themselves convene and the fullest discussion be given to questions which concern the Liberals in each of these provinces."

Sir Wilfrid's decision is likely to be guided by the date of the reassembling of the federal parliament, which Premier Borden has announced for November.

TECHNICAL EDUCATION.

Toronto, Oct. 4.—Dr. F. W. Merchant, provincial director of technical and industrial education, has left for a year's tour of Great Britain and Europe. He will study the course of organization, equipment and management of the leading technical schools. Ontario is making progress in this branch of education. Day schools are now in

operation in Toronto, Hamilton, London and Brantford. Night classes are being conducted at Toronto, Hamilton, Guelph, London, Stratford, Galt, Berlin, Brantford, Owen Sound and Thorold. Sault Ste Marie has a co-operative class and London is considering the establishment of one. Industrial classes are likely to be opened soon at St. Thomas, Collingwood, Brockville, Smith's Falls and Peterborough.

POLL TAX WILL BE ABOLISHED

Sir R. McBride Says Revenue Laws Will Be Amended at Coming Session

Vancouver, Oct. 4.—Sir Richard McBride, interviewed here while on his way to New Westminster, predicted a busy session of the legislature, which will meet on January 12. Amendments to the provincial revenue laws will have a prominent place on the legislative programme.

The proposed new law will involve the cancellation of the old three-dollar poll tax, as well as important changes in the way of reduction in personal and realty taxation. The government holds the view that all the revenue necessary for carrying on the machinery of government should be derived from natural resources. Sir Richard continued:

"It is expected that the municipal commission will report, and this will enable the house to go on with the consolidation of the Municipal act. The sessional work is becoming increasingly heavy, owing to the rapid growth of the country."

"We expect within the next two weeks to make announcements respecting university affairs and the labor and agricultural commissions which the government has promised to appoint."

AMERICANS RESCUED.

Mexico City, Oct. 4.—Three American citizens were rescued by rurales guards from the rebels just as they were being compelled at the muzzle of rifles to write letters to friends in the capital asking for money for their ransom.

The men were A. B. Skolen, L. J. Slattery and C. J. Miller. They are civil engineers and were engaged in railway survey work when they were captured by rebels and taken to a camp near Amecameca, thirty miles southeast of here. Their captors insisted that they were probably spies or newspapermen, and in either case, they should be shot. A body of rurales guards made an opportune attack on the rebel camp and the prisoners were abandoned by the rebels.

DIES IN SLEEP.

Walla Walla, Wash., Oct. 4.—The howling of a dog outside the bedroom window early in the morning awakened Mrs. Edward A. Childs. Frightened, she shook her husband to awaken him. When she discovered he was dead. It was some time before she could summon aid. Death was caused, it is said, by heart failure. He had evidently been dead for hours.

ROYAL PARTY AT NEW WESTMINSTER

FORMAL OPENING OF THE EXHIBITION

Presentations to Capt. Troup, Capt. Locke and Officers of the Princess Alice

New Westminster, Oct. 4.—The steamer Princess Alice while on the way across the Straits yesterday was the scene of a very pleasant presentation by their Royal Highnesses, the Duke of Connaught remembering several of the officers of the ship in a very substantial and graceful way. Captain Troup, marine superintendent of the C. P. R., was the recipient of a handsome pin bearing the royal monogram and the insignia of the garter in miniature. Captain Locke, of the vessel, presented with an autograph photograph of the Duke and another hand some pin bearing the royal monogram. Other gifts, including monogram pins and silver cigarette cases, bearing the Duke's monogram, were presented to the deck officers, Messrs. Rippon, Shatford, McLeod, Chief Engineer Pettigrew, Purser Fawcett and the wireless operator, Mr. Johnson.

At the C. P. R. wharf the sight receiving committee was lined up to receive the party, the wharf being prettily decorated for the occasion. At the dock, Mayor Lee, Mrs. Lee, Miss Lee, Miss Annie Seaton and others were presented in turn to His Royal Highness, the Duchess and Princess Patricia.

A special procession preceded the royal party, consisting of members of parliament, the aldermen, the Bishop of New Westminster, the mayor, Mrs. Lee and the May queen, Miss Slaton. The royal procession was headed by Chief of Police Bradshaw and Fire Chief Walls, the director of ceremonies.

At the Exhibition.

The procession, on arriving at the exhibition grounds, proceeded to the special stand constructed in front of the women's building, where the ceremonies opened.

On taking their places on the platform, the Duchess of Connaught was presented with a bouquet by Miss Lee, daughter of the mayor, and another bouquet was presented to the Princess by Miss Slaton, the May queen, and Mrs. Fletcher, president of the Women's Council, presented the Duke with a basket of fruit.

T. J. Troup, president of the Royal Agricultural and Industrial Association, was presented to His Royal Highness, and extended the invitation to His Royal Highness to formally open the exhibition, expressing his pleasure at the honor afforded the city in the opportunity to extend a welcome to the representatives of the royal family. He outlined, in the course of an address, presented to His Royal Highness, the progress of the fair which was about to be opened. At the conclusion of the address, Mr. Troup presented His Royal Highness with a handsome key of gold.

The Duke's Reply.

In reply, the Governor-General expressed his great pleasure at being permitted to take part in such a pleasant function as that of opening the exhibition, which, he was sure, was a factor in developing the country and of great benefit to its inhabitants. He then declared the exhibition formally opened, wishing it and its management great success.

The prize-winning stock, horses and cattle, were then marched before the stand. Ringmaster W. J. Clements being in charge of the parade, a duty that was doubly pleasurable to the veteran horseman, in that he served under His Royal Highness in the Royal Horse Artillery in 1879-80. The royal visitors expressed themselves as being much-impressed with the quality of the live stock exhibited.

There followed the presentation of a purse to the duchess for the Victoria Order of Nurses, the presentation being made by Mrs. Armstrong, after which the ladies and gentlemen on the platform were presented to the royal party.

From the stand the Duke and Duchess and Princess proceeded to the tree-planting ceremony, which was performed by all the royal party. His Royal Highness made some humorous comments on the efforts of the Princess, whose tree showed some signs of wobbling as she tried to hold it upright.

While the tree planting was in progress the visitors had an opportunity to witness the New Westminster fire department, or at least that part of it housed on the grounds, in action. An alarm was sent in from the Columbia college, just outside the grounds, where an explosion in the chemical laboratory caused a small fire. The fire was soon put out, but en route to the scene the fire wagon on the grounds rushed by the tree planting party, scattering the spectators right and left, while the royal visitors gazed at the speeding firemen with interest.

At the conclusion of the tree planting the Princess and Duchess returned to the city, boarding their cars while the Duke of Connaught remained and inspected the agricultural building and the fishery exhibit, the building being cleared of other visitors while he did so. Among the visitors to the exhibition to-day was Premier Sir Richard McBride.

At 5.40 o'clock the royal train pulled out over the C. P. R. tracks after an ovation from the citizens.

WILL NOT BE REPRESENTED.

San Francisco, Cal., Oct. 4.—President Taft will be without representation from California in the electoral college. Not a vote for him can be cast in the state, unless it be written in. By direction of the state supreme court here electors pledged to him cannot appear on the ballot as Republicans.

GERMAN EMPEROR FROWNS ON GAMBLING

Names of Nobles Arrested in Raid Are Struck From Court List

Berlin, Oct. 4.—The craze for gambling among the wealthy and aristocratic classes of Germany and Prussia has reached such a pitch that the authorities are at their wits' end how to combat it.

The raiding of private gambling games they find is no use, as the players caught therein are of such prominence that prosecutions are considered inadvisable.

Every effort is made to keep the real state of affairs from the Kaiser, but a recent case came to his ears, with the result that he summoned the court marshals of his empire to his presence and asked them to use their influence to suppress the craze. As a consequence, Count Hohenburg and Prince Furstenberg, who are marshals of the imperial court at Berlin and the royal court of Prussia, have just sent private letters to all members of the German nobility asking them to use their influence in discouraging the high play which goes on in their circles.

Recently the police descended upon a private bar in Froben Strasse in the small hours of the morning. They found a brilliant gathering gambling for very high stakes. The police took possession of a large amount of money on the tables, and among the gamblers found three counts of the best East Prussian aristocracy and their wives.

The Kaiser, indignant at the news, ordered the court marshals to strike the names of the nobles found gambling in the Froben Strasse from the court list. One nobleman, upon hearing this, committed suicide.

GREAT BRITAIN AND U. S.

United in Friendship They Will Dominate the World, Says Sir George Reid.

Washington, D. C., Oct. 4.—"As long as Great Britain and the United States stand together in friendship they will dominate the world," Sir G. H. Reid, high commissioner of Australia, is quoted as saying in an interview published here yesterday.

"Should there be a rupture in their friendly relations," the interview continues, "and there is no indication that such a rupture will occur, other powers might seek to change the balance of power of the world."

Sir George spoke reservedly about the Panama canal. He declared that "Great Britain would not begrudge the United States any recompensation for the canal, but thought the American people would observe every treaty right to which they were pledged."

The commissioner declined to discuss the Home Rule situation.

PIONEER DEAD.

Nanaimo, Oct. 4.—The death occurred Thursday night of Thomas Cassidy, one of the best known men in this section of the island, and probably the best known farmer in Cedar district. The deceased passed away at his home at Haslam Creek near Cassidy's siding, named after him.

Mr. Cassidy has been a resident of the district over thirty years. He was a native of Ireland and in his 64th year. On coming to America he first settled in the states and later came to Vancouver Island, working for a time in the East Wellington mines. As a farmer he was very successful. The deceased leaves to mourn his loss a widow, three daughters and two sons, William and Edward, the two sons residing at home, and the daughters Mrs. Edward Vowles, Cedar district; Mrs. Oscar Richards, Washington state, and Miss Katherine Cassidy, residing at home.

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poisoning! Not one species of microbe has been found that Zam-Buk does not kill!

Then again, as soon as Zam-Buk is applied to a sore or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again, as soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh, healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissues above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delormier Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

B. C. Electric Railway Company, Limited

MAY RECONSIDER V. AND S. QUESTION

SOME POINTS OF THE TANGLED LEGAL WEB

Decision of Government Over Roadbed Held Back Pending Negotiation With City

It is understood another attempt will be made to reach a settlement with regard to the Victoria & Sidney Railway Company, and its proposed absorption in name as well as in fact in the Great Northern system of the United States, operating in the province as the V., V. & E. railway.

The absence of three members of the council on Tuesday is likely to be made the reason for the reconsideration of the proposal then submitted. Alderman Cuthbert is in California. Alderman Beard unfortunately on a sick bed, and Alderman Humber was also away from the meeting. As it is one of the most important subjects which has engaged the attention of the city council this year, it is inevitable that the subject should be carefully considered before the offer is rejected finally. The difficulty seems to be that the Great Northern lawyers will not make further concessions, and the city representatives are practically faced with the acceptance or rejection of the terms named in the letter which formed the basis of the negotiations. All the company is prepared to do is to divide between the city and the provincial government in proportionate shares the profit made on the road after expenses have been cleared, and to guarantee the interest, \$45,000 to the city, and \$30,000 to the government which the authorities have been meeting in the past two decades.

The argument, which has been advanced, that the line is likely to further depreciate in value when the Saanich extension is opened next year, and the steam road has a competitor in an electrically operated road is hardly borne out by experience on the Lower Mainland, where the B. C. E. R. lines in competition with steam roads have not depreciated the latter, in fact there is found to be ample room for both. The extension of the B. C. E. R. here will not touch Sidney, except a mile, and a half out, and the route will turn westward to Deep Cove from there, not in any place is the electric road close to the existing railway.

There is room enough on the Saanich peninsula, developing as it is today for both companies, and the Great Northern is not likely to abandon the only opportunity it has to reach the capital via its steam ferry for freight cars from the Fraser river.

A factor which cannot be lost sight of in the negotiations is the report of the provincial department of railways on the road, the nature of which has been carefully concealed till the action of the council has been determined. But it is known that the report will call for most sweeping changes, re-ballasting of roadbed, track improvements, and better rolling stock, and will probably involve an expenditure of between \$50,000 and \$100,000 to the operating company.

There is an action now in the courts between the city and the Victoria Terminal Railway over the obstruction of Blanchard avenue, the agreement of the council with the company three years ago giving certain powers in the case of that avenue which it is alleged have been abused. Until a settlement has been reached in this matter the permanent paving of Blanchard north of Pandora cannot be undertaken. When Pandora is widened, and Blanchard street improved, with the removal of the two churches at the Pandora avenue end, a much better access will be given to the depot of the company.

TRAIN DERAILED; EIGHT LIVES LOST

Five Women Among Victims—
Fire Adds to Horror
of the Scene

Westport, Conn., Oct. 4.—Eight persons, five of them women, were killed yesterday, when the Springfield Express, running from Hartford to New York over the New York, New Haven and Hartford Railroad, was wrecked west of this station.

The engine, driven at high speed, failed to take a cross-over from one track to another. The train went into the ditch alongside the tracks, and the four Pullmans which followed the mail and baggage cars were demolished. The wreckage took fire, adding to the horror of the scene.

The women killed were passengers in the first Pullman coach. The other dead were the engine crew. Among those killed were the daughter and

daughter-in-law of Anthony N. Brady, the well known traction man of Albany and New York City. The women of the Brady family, with a party of friends, had attended the funeral of Patrick Garvin at Hartford.

The locomotive, which was running at high speed, went over on its side after leaving the roadbed, and the boiler, to all appearances, exploded. Engineer Clark was taken out alive, but died soon after. Joseph J. Moker, his fireman, was crushed to death. The three day coaches, although derailed, remained upright.

The dead: Miss E. P. Gavitt, daughter of Anthony N. Brady; Mrs. James C. Brady, daughter-in-law of Mr. Brady; Mrs. C. S. Ransom, sister of Mrs. James C. Brady; Miss Mary Hamilton, sister of Mrs. Brady; Engineer Clark, Fireman Moker, Mark Wheeler, mail clerk; two unidentified.

Eight injured.

Rockland, Mass., Oct. 4.—Eight persons were injured, two probably fatally, when a passenger train on the Hanover branch of the N. Y. N. H. & H. Railway struck a wagon at the Union Square crossing in this town. The seriously hurt were.

THREE DAYS IN OPEN SAILBOAT

Man, Reported Missing by
Companion, Rescued After
Tiring Experience

Vancouver, Oct. 4.—After tossing about in an open sailboat for nearly three days between Bowen Island and Vancouver at the mercy of the equinoctial gales, Herman Hagan, a Norwegian, was picked up in a half-famished condition by a party in a launch. The boat was found tossing about in English Bay some miles from shore.

Hagan was accompanied to Bowen Island by Robert Clark, but the latter came back to Vancouver on the Britannia, while Hagan undertook to sail back in an open boat.

The voyager left Bowen Island on Monday, September 30, and Clark prepared to rejoin him on Tuesday morning. There were no signs of Hagan at the rendezvous, and after a day had

elapsed, Clark decided that his companion had met death by drowning and reported his disappearance to the provincial police. The latter at once warned all craft making the passage between Vancouver and Bowen Island to be on the lookout for the boat. All hope had been practically abandoned, when the welcome discovery was made.

GERMANY AND BRITAIN.

There can be no disputing the fact that the working classes of Germany have no quarrel with the same classes in the United Kingdom. Nor does there seem any reason to doubt that the commercial interests of both countries are on the most friendly terms. For many important British exports Germany is the best customer of the United Kingdom, and, in turn, Germany sells a very important proportion of her exports in Great Britain. Left to themselves, the business men in both countries would continue to buy and sell with each other and the cordial relations usually existing between those who trade together would be fostered. Wage earners would be kept busy, and such would not bother themselves about these issues as war between their respective nations. These conditions do not prevail, however, among the jingoes. When it is unnecessary for the politicians of Great Britain to bluster about war, German statesmen keep an embargo threatening, and when Germany is peacefully pursuing her own ways of engrossed in the expansion of commerce, the jingoes of Great Britain exaggerate the peril of the Empire and throw the whole fabric of British and Anglo-Saxon civilization throughout the world into fear and frenzy. One day we have a declaration from some British Unionist politician that war is imminent and the next a retort from someone who thinks he knows, characterizing the whole as a figment of imagination and ridiculing the theory that Germany has either excuse or desire for conflict with Great Britain.

It is a relief, therefore, to read a letter such as is written to the Winnipeg Saturday Post by a prominent resident of Baltimore, U.S.A., now sojourning in Germany. Mr. Corbin writes to refute a jingo editorial in the paper named. His language is moderate and the opinion which he expresses seems founded on wide observation and sound common sense. He says:

A two years' sojourn amongst representative German people has convinced me that there exists no "German peril" for England, but that, on the contrary, there is grave danger of a descent on Germany by England at any time if the commercial interests of Great Britain succeed in their too evident design of nagging Germany into hostilities. Hence the rapid growth of the German navy during the past decade. Several days ago a London yellow journal openly advocated a declaration of war by England against Germany for no other good reason than that the humiliation of Germany would improve business in England.

"Germans feel certain that the combinations which have been formed against her may, even with the German navy fully developed, result in good use of England. Russia is making too good use of both of them. England is making the mistake, because of an absurd suspicion of Germany, of allowing Russia to approach her boundaries in Asia—a mistake for which she will some day pay dearly if Germany should be humiliated, and for revenge eventually take sides against England with the Russian Bear.

"There is no hatred of England in Germany. But there is real concern for the future, because of England's ill-concealed jealousy of Germany's legitimate trade expansion. Hence Germany's defensive measures, which have no threat, even have or ever will divert her from. To build only such ships, and in such numbers as England would specify for her as 'fair,' or such harmless guns and inefficient soldiers as England would prescribe for her, is something no self-respecting nation would, for a moment, stand for. Yours,

H. C. CORBIN,
Baltimore, U.S.A.

"Berlin, Sept. 1, 1912.
The value of such a letter is the value of a glaring spotlight. It is possible to prepare strange spectacles and march them across the stage with fine effect until sidights are thrown on the rostrum. The illusions, then van-

ish. The moral of the whole is that Canadians must demand from the government the fullest information before permitting their parliament to commit them to schemes and projects justified by faked emergencies for exclusively political purposes. Canada wants no stampede in deciding her naval policy. What the people as a whole desire is a Canadian navy. On this they should insist.

CHINESE RECIPROCITY.

General Spiridovitch, a Russian military commander, recently interviewed in Paris, expressed the opinion that there will be war between Russia and China for the ultimate possession of Siberia. The reason given for the opinion expressed is of interest to Canadian and American people because it has for its foundation conditions somewhat similar to those which exist on the American continent respecting supply and market for the wheat products of the Canadian West. China, says the Russian general, has a population of 500,000,000, and to feed these, the Chinese empire must take by force the unoccupied steppes, people them with grain growers and produce the necessary breadstuffs to keep the teeming population of China from starvation.

The United States is coming rapidly to the situation of China—that of requiring more wheat than can be grown in its own country. China proposes to overcome her difficulty by the forcible annexation of sufficient Siberian territory to feed her people. What would ultimately take place should the issue of wider markets and freer trade between the two American nations continue to be blocked and resisted is made a matter of speculation by the Edmonton Capital, a paper which voices the prevalent sentiment throughout the great wheat belt of the Prairie Provinces. While it looks for the triumph of common sense and patriotism in the early future, the Capital says:

"But suppose Canada and United States were nationally as irreconcilable as Russia and China—that Canada would not ship her wheat and that United States would not be allowed the opportunity of feeding her people, what would happen then? "Would a hundred million people sit on the south side of an imaginary line and starve while granaries burst on the northern side and land lay idle for the want of a market? "China does not propose to do it, and history does not record that any country has done it yet.

"United States and Canada are friendly because their trade relations are friendly. But the desire to eat is the same in America as in Asia. Friendly relations would not survive the demands of hunger!"

It would prove a poor compliment to the common sense of Canadian people should the consummation of a trade agreement with the American people be procrastinated until such time as, in sheer self-protection, the Americans are obliged to apply pressure to secure their food supplies from a friendly nation divided from them by an arbitrary tariff wall.

The chief government organ considers "the advisability of indulging in partisan discussion at this stage of the movement to promote shipbuilding on the Pacific coast is more than questionable." Boards of Trade throughout the province will hereafter be careful before giving expression to the view that the high tariff on shipbuilding materials is the chief obstacle in the way of shipbuilding industries. If they really think this they must first obtain permission from the Colonist before committing the inadvisable. But since when has the Colonist become an authority on what is either advisable or in good taste?

The chief government organ in its strenuous eulogy of Sir Richard McBride to-day says that his policy has been an "unqualified" success, which sweeping statement it immediately qualifies. With its final explanation of its own tangled meaning it says: "It only means that by the prosecution of a bold, yet well-considered policy, he has succeeded in placing British Columbia in a position that otherwise it would not occupy to-day." We think there would be no "partisan" in seconding this motion. It all depends upon the viewpoint. Certainly if Liberals are to be permitted to read into the declaration what they really think, nothing could more aptly express their opinions.

POOR MR. TAFT!

From the Detroit Free Press.
President Taft reprieved a murderer because the man's sanity is doubted, and the fellow is furious at the President and eager to die. Did ever a President have such a hard time satisfying people?

IGNORED SMALL FRY.

SETTLEMENT OF INDIAN LANDS ISSUE

Reported Agreement Reached Over Thorny Problem—Dr. McKenna Goes East

It is understood that a settlement of the Indian reserve question in British Columbia, involving the matter of reversionary rights and other issues, has been reached by the provincial and Dominion governments. The negotiations have been in progress for nearly three months in this city. Hon. W. J. Bowser, attorney-general, and Sir Richard McBride participated in the various conferences on behalf of the province, and Dr. J. A. J. McKenna, acting as special commissioner for the Dominion authorities. To make the settlement effective all that remains to be done is to secure the formal approval of the arrangement by the Ottawa government.

Dr. McKenna left here yesterday for Winnipeg, where he will meet and submit to Hon. Robert Rogers, minister of Indian affairs, a copy of the proposed agreement which to become effective, has to be approved by the respective government. This approval is expected to follow shortly.

At one period there was a probability of the dispute being referred to the court for adjustment, but as the negotiations proceeded a settlement on the basis of mutual concessions was reached. One of the main contentions of the province is that in cases where Indian reservations became vacant the land reverted to British Columbia, the original reservations having been made in crown colony days.

LOCAL NEWS

Fire From Flue.—A fire originated in a flue at the residence of E. Fraser, 252 Irving road, last evening necessitating the attention of No. 6 half (Fairfield), but was quickly extinguished without much damage being done.

Building Permits.—The Oak Bay authorities have issued building permits to the following: To S. McLure for improvements to a house on Beach drive, costing \$1,500, and to the Victoria Building and Investment Company for two houses of seven rooms each, one on Hampshire road north, at a cost of \$2,500 apiece, and other on Bowker avenue costing \$3,500.

A Good Way to Boost.—One of the best ways of giving publicity to either a city or district is by good, attractive articles in magazines which have a wide circulation. Recognizing this fact, Ernest McGaffey, secretary of the Vancouver Island Development League is contributing articles on

Victoria and the Island frequently in the leading periodicals. His latest effort and one worthy of high commendation is an article in the United Empire, the official organ of the Royal Colonial Institute, on "Vancouver Island," which he is to follow up in a later issue with one on "Victoria." In the present issue of the B. C. Magazine there is also appearing an article from the pen of this able writer, entitled "Immigration."

Two Committee Meetings.—Two council committees will meet this afternoon, the cemetery at two o'clock and the streets at four p. m. Routine business will engage each. The much discussed street sprinkler, about which several questions have been asked, has not yet arrived from Vancouver.

Y. M. C. A. Bible Classes.—The Bible class courses at the Y. M. C. A. will open on October 22 with a meeting of all members, and a cordial invitation to all who take any interest in the work. Great preparations are being made to make the Bible class courses at the building this year the most thorough and the most comprehensive ever undertaken at the local association.

Building Permits.—A building permit has been granted to Sylvester Brothers through J. H. Hollins, the contractor, to execute excavations for a building on Yates street, to cost \$18,000. E. Butterfield is the architect. Other permits are to James Dougan for a four-roomed house on Hereward street costing \$1,000, Charles Boniface for a five-roomed house on Beechwood street costing \$2,200, and G. Willoughby for a garage on Pemberton road, which F. Wood will build from the design of S. MacLure.

New Marine Insurance Office.—The firm of C. Gardner, Johnson & Co. of Vancouver has opened an office in Easton Square in this city, with John R. Waterhouse in charge. The firm who are Lloyd's agents for British Columbia, represent the Union Marine Insurance Co., Ltd., the Standard Marine Insurance Co., Ltd. and the Pacific Coast Casualty Company. Mr. Waterhouse for the last few years has been connected with the firm of F. Waterhouse & Co., of Seattle.

New Companies.—The following companies have been incorporated: Automatic Call Company of the Dominion of Canada, Ltd.; Consumers' Explosives Company, Ltd.; Fritz Steiner Brewing and Malt Company, Ltd.; Great Western Printing & Publishing Company, Ltd.; H. C. M. Syndicate, Ltd.; Invermere Contracting Company, Ltd.; Maritime Motor Car Company, Ltd.; Staples Securities Company, Ltd.; Vancouver Spring Doublet Company, Ltd.; Wright Investment Company, Ltd.

Car Service Change.—A rather important change in the car services of the city was brought into force yesterday on the Douglas street route. Naturally there was a certain amount of confusion as a result of would-be passengers forgetting that any notice had been issued by the company, and waiting at certain points of the line for cars that never came. For a short time, that is to say until the improvements being undertaken from Burnside road to the city limits are completed, the cars between that portion of the street from the fountain to the city limits will run by way of Government street to Burnside road and vice versa. In all probability this condition of affairs will last for about a fortnight.

Boys' Football Club.—The boys of the Y. M. C. A. met last evening to effect the organization of a football club among the members. It was decided to join the City Junior League and a committee of management composed of H. Carter, R. Yates, E. Finland was chosen with Howard Carter as acting captain. The boys will turn out for the first time to-morrow at Beacon Hill, when a practice game will be played between two picked teams. The kick-off is at 2.30. The colors of the club are to be red and white. A. O. T. Jones, the boys' work director, reports that he has an exceptionally fine lot of boys in the club this year, and hopes to make a great showing in the league.

Preparing for Motor Apparatus.—The central station staff is cleaning up and preparing for the new apparatus now on its way from the Seagrave shops. As soon as it arrives a parade will be held.

LOOK AHEAD!

Look ahead and you will probably be astounded to find that Xmas is less than three months off. We have made great plans for the supply of PRIVATE XMAS CARDS, and we want you to place your order now. By ordering from us you can be certain of getting your cards just as you want them and eliminate any possibility of error. Remember how disappointed you were last year because you procrastinated until too late. Call to-day; see our samples and get our prices.

We can please you.

Spencer Values in Women's Costumes and Winter Coats Demonstrate the Big Buying Powers of your Dollars at This Store

AND every garment that we are now showing is a reproduction of a style that is selling at big prices in the fashion centres. They are absolutely authoritative as to style and come in a variety of materials that not only look well but possess the qualities of service and comfort. In the huge range that is to be seen in the Mantle Department to-day, there is a style and a size that will meet the demands of all. No matter how conservative you may be, or how elaborate a garment must be to please you, you will find just the line you want.

We have a huge variety of qualities, too. Styles that will meet the approval of women who have only a very limited income are well represented, while in the higher priced garments there is a showing that should please even the most exacting women.

Our special lines to-day are Women's Coats at \$17.50 and \$25.00 that set a new and very high standard for quality of both material and tailoring. They are beautifully finished, are to be had in all sizes and come in many new and pleasing styles.

In the showing of Women's Costumes, our special lines marked at \$25.00 are particularly interesting. They are the popular plain tailored style and are to be had in choice navy blue serges, and good tweed in a variety of mixed colors. The lines are as graceful and the fit is so perfect that they immediately impress you as garments of a superior order.

YOU ARE INVITED TO INSPECT THESE LINES

Cold Weather Suggests Warm Underclothing

HERE'S SOME GOOD LINES FOR WOMEN

IF we had more space for this advertisement we would mention many other lines that deserve your attention, but we must confine our remarks to just a few sample lines.

If you are looking for cosy garments visit this department and inspect our stock of fleecy flannelette underwear, night gowns and other inviting lines that will add to your comfort during the winter, you'll find them to be full of interest.

SHORT UNDERSKIRTS for women are to be had in colors white and pink. They are made of good quality of flannelette with a beautifully soft finish. The garments are finished with a frill of self edged with embroidery. Price only **75c**

FLANNELETTE UNDERSKIRTS of extra good quality are to be had in sizes 30 to 34. They are finished with a frill of self and are trimmed with narrow lace. A very special line at **50c**

WOMEN'S DRAWERS—These are made of a very good quality of grey flannelette and are to be had in all sizes. Per garment **50c**

WOMEN'S NIGHT GOWNS, made of good heavy flannelette are here. They have high necks, long sleeves, deep square yokes tucked and set with insertions, are to be had in all sizes from those for small women up to the extra old sizes. A splendid line at, per garment **\$1.25**

LET US SHOW YOU OTHER LINES

It Pays to Buy the Best Sheetting

AND this is the store that can supply you with it at a price that can't be bettered. We are now showing a full range of qualities and widths, so you are sure of finding just the line that will suit your purpose exactly.

UNBLEACHED SHEETING, 2 yards wide, made from a nice soft cotton, well finished and a quality that is easily worth 25c a yard is on sale to-day at **15c**

UNBLEACHED SHEETING—Here are some of the heavier qualities that will stand all kinds of hard wear and will bleach white after they have been laundered a few times. We strongly recommend this line.

7-4 width comes at, per yard **30c**
8-4 width is marked at 35c and **30c**
9-4 width comes at, per yard, 40c and **35c**

EXTRA WIDE SHEETING—These are to be had in three qualities and all are a very high standard for the price. They are 2 1/4 yards wide and are marked at 55c, 50c and **40c**

A SPECIAL IN COMFORTERS that will be welcomed by many is on sale to-day. They measure 72x72 inches, are filled with a good quality of sanitary filling and are to be had with various styles of covers. Good values at \$2. To-day's special **\$1.50**

HOSIERY SPECIALS FOR SATURDAY

THAT the prices are as low as any woman would expect to find them is a fact beyond dispute. But there is only one way to be sure of getting the most value for your money. The only way is to make comparisons, and if you will make a comparison of qualities you will be sure to make your purchases at the Spencer store on Saturday.

FOR CHILDREN we have a fine line of plain Cashmere Hose in sizes 4 to 8 1/2 that are selling at only, per pair **25c**

FOR MISSES there is a superior quality of plain black Cashmere Hose to be had in sizes from 6 to 8 1/2. The dyes are fast and we consider them to be the best values to be had at the prices quoted. Per pair, 35c, 40c and **50c**

FOR BOYS AND GIRLS there are some heavy quality of ribbed cotton hose in sizes from 5 to 10. They are an excellent quality and should sell rapidly at, per pair **25c**

HEAVY WORSTED HOSE FOR BOYS—Good for rough wear and to be had in sizes from 5 to 10. Per pair **25c**

FOR WOMEN we have some ribbed Cashmere Hose in sizes 8 1/2, 9 and 9 1/2 that are really good at, per pair **25c**

ANOTHER GOOD LINE FOR WOMEN is a plain cashmere that comes in sizes 8 1/2 to 10. They are fully fashioned and the dyes are fast. Per pair, 35c, or three pairs for **\$1.00**

RIBBED CASHMERE HOSE FOR WOMEN—These are an extra good quality and are to be had in sizes from 8 to 10. Per pair, 35c and 3 pairs for **\$1.00**

FINE CASHMERE HOSE FOR WOMEN—Sizes 8 1/2, 9, 9 1/2 and 10 are to be had and the quality of the hose is all that you can wish it to be. They are full fashioned, seamless and the colors are fast. Per pair, only **50c**

"THE LITTLE DARLING" is a splendid line of children's hose, in fact the best brand on the market that can be sold at a reasonable price. All sizes are to be had and the colors are black, tan, blue, cream and cardinal. Per pair, only **25c**

MEN'S and WOMEN'S SHOES \$3.45

Are the Special Lines for Saturday at \$3.45

FOR the week-end we are placing on sale a fine assortment of Fall footwear for both men and women at \$3.45, but in every case the styles are new and the value of the goods is deserving of a much higher price. All sizes are here and we guarantee that they will give you perfect satisfaction.

MEN'S STREET AND WORK BOOTS

BUTTON BOOTS are to be had in either black or tan calfskin in a variety of new shapes. They are good fitting and comfortable shoes finished with solid leather soles and heels of a medium weight. All sizes at, per pair **\$3.45**

MEN'S BLUCHER BOOTS are here in a choice variety of styles and are to be had in either black or tan. Velour calf, box calf, glazed kid and patent leather are all well represented in this line and many of them are leather lined. All have solid leather soles and come in suitable weights for fall and winter wear. Per pair **\$3.45**

SOFT CHROME TANNED WORK BOOTS, fitted with double waterproof soles are a line that should command great attention from mechanics and others who must have strong shoes. They have welted soles and are as comfortable as you could wish a shoe to be. All sizes are here and the price is only, per pair **\$3.45**

SMART SHOES FOR WOMEN

TAN BOOTS are as popular as ever and here is a fine assortment of styles in both button and lace models. They are all new and stylish shapes and should sell rapidly at this price. There is a size here that will fit you. Per pair **\$3.45**

GUNMETAL AND PATENT LEATHER BOOTS are to be had in both the buttoned and lace styles. They are a quality that we are confident will give you absolute satisfaction and are as comfortable as a shoe can be made for the price. Various lasts are here to choose from and they come in a full range of sizes. Per pair **\$3.45**

GLAZED KID BOOTS, leather lined and finished with a stout sole in a style that will please the woman who has to do much walking during the wet weather. They are very comfortable and have a smart appearance. Per pair **\$3.45**

TAN CALF BLUCHER BOOTS, finished with a waterproof double sole is another excellent line for street wear. The heels are a sensible height and you'll find them to be both comfortable and serviceable. All sizes are to be had. Per pair, **\$3.45**

TWO BIG SPECIALS IN WOMEN'S GLOVES

REGULAR \$2.25 VALUES SELL FOR \$1.75, AND REGULAR \$1.25 VALUES WILL BE SOLD FOR 75c.

THEY are dependable gloves and are to be had in all sizes, but as they are a special purchase, made at a distinct price advantage, we have marked them at a close margin of profit to make sure of a speedy clearance.

GLACE KID GLOVES—These are to be had in white only and are 12 button length. They are a quality that we should sell in the regular way at \$2.25, but you can buy them to-day at **\$1.75**

WOMEN'S SUEDE GLOVES—We have 120 dozen of these gloves to dispose of but such a small price for excellent gloves should mean that they will sell like hot cakes. They are two clasp length and come in colors mode, grey, taupe and black. Regular value \$1.25, to be cleared out at **75c**

A Special from the Music Department Which Will Prove Popular

THE CELEBRATED STAR FOLIO OF FAMOUS MUSIC (English edition) has arrived, and there are thirteen different volumes to choose from. Each volume is a collection of music of one class. For instance, there is one or more volumes devoted to good songs, another to pianoforte solos, violin solos are in another volume, etc. A good way to buy an assortment of pieces at a small price. Your choice for **50c**

Meet me at the Blamack.
Take a five days' trip around the Sound, by steamer of P. C. S.S. Co. Phones 4, 2511 or 2521.

Mr. Geo. W. Fuggle, piano-tuner, wishes to announce to his many patrons, that unexpectedly he has to leave for the East and will be away for six or eight weeks. During his absence orders for piano tuning, etc., may be left at, and will be attended to, by Fletcher Bros., music store, Government street.

Fall Ten Feet.—But Being made of enamel the teapot did not break. These pots are so nicely shaped and so beautifully decorated you can scarcely discern them from the earthen pots. In a big variety of shapes, patterns and sizes, 50c to \$1.75. R. A. Brown & Co., 1302 Douglas St.

Men's Suits at Bargain prices. Merchants' Sales Company, corner Government and Pandora Streets.

A Musical Treat.—The Ladies' Musical Club are once more bringing many well known artists to Victoria. On Friday next Riccardo Martin, the famous tenor, and Rudolph Ganz, the eminent Swiss pianist, will be heard in the Victoria theatre and it is to be sincerely hoped that the public will tax the seating capacity of the theatre to its utmost, not only for the sake of hearing those wonderful artists, but also to help along the Ladies' Musical Society which has taken upon itself such an enormous amount of hard work, not to speak of large financial responsibilities. In order to give the public of Victoria a chance to hear the best music that the world produces, close to home. Through the medium of the Victoria orchestra one can hear the same songs which will be rendered by Riccardo Martin and the public are cordially invited to hear the life-like reproductions at Harmony Hall Piano Ware-rooms, 235 Fort Street. Solo Island Agency for the celebrated "Steinway" Piano as used by Rudolph Ganz.

Men's Overcoats are selling at half price at the Merchants' Sales Company's Store, corner Government and Pandora Streets.

Altering Princess Theatre.—A. O. W. hall is to be changed into a first class theatre this coming spring. Dave Williams, who is at present playing stock there, will have the lease of the new theatre. The present company will remain all winter, giving their usual excellent performances. Vancouver has two stock companies. They are both well patronized by the citizens and there is no reason why Victoria should not be able to support one.

Road Officials on the March.—Road Superintendent C. J. Gillingham, of Skeena district, accompanied by Foreman John Anderson, is leaving shortly from Stewart on an exploratory trip embracing the territory between Hazelton lake, at the end of the present trail, and the government telegraph line between cabins 6 and 7. They are to look over the route traversed by Engineer Carl Gillespie and report to the government the approximate cost of the trail asked for by the people of the district. If the estimate is at all within bounds, it is expected that the trail will be built next season. Harry Lee, the Alberni road superintendent, has just completed his cruise of the country between Port Alberni and Four Mile Creek on the Island Highway, between which points it is proposed to construct a new short road. Mr. Lee's report is expected to reach the public works department next week, and a survey party will probably be put in the field very shortly.

Invaluable and Attractive.—One of the exhibits at the recent agricultural exhibition which was the centre of attraction in the agricultural department was the magnificently colored and topographically correct relief map of Vancouver Island, placed on view by the firm of Kennedy Brothers who are making a specialty of that class of work in Western America. A single glance at such a map conveys more information, as to the relative position of localities on Vancouver Island, the inland waters, whether lake or stream, railways and settlements, than the reading of tomes of advertising literature. It was a valuable feature of the exhibit and no doubt tended to enlarge the vision of the island in the minds of those who paid their tribute to the excellence of the work by the close attention with which they studied the work of art.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, October 4, 1887.
The C. P. N. Co.'s new steamer Premier has sailed for Victoria. She will arrive here to-morrow.
Hudson Bay shares are now quoted in London at £21½. A year ago they were at £26.

The sturgeon caught at Ladner's landing yesterday weighs 822 pounds.
Mr. J. M. O'Brien, editor of the Colonist, is off for a two weeks' holiday. He is mountain climbing on the mainland.

By Senator McMaster's will his property, personal and real, is stated to be worth \$1,200,000.
In a former article we pointed out one of the possible effects of opening a canal at the Isthmus of Panama, and the undoubted advantages that would accrue to British Columbia commerce by the reduction of almost one-half of the distance from Victoria to Liverpool. A Montreal paper referring to the matter holds the Panama canal the only way, stating the Nicaragua canal and the Tehuantepec railway are impracticable. The successful operation of the Panama Canal will mark another and a greater era in Pacific coast trade than even did the C. P. R. railway.

At the provincial agricultural show William Dalby, of this city, was the only exhibitor in livestock of any consequence. He exhibited the Rose of Viewfield, with two calves. These animals took all the prizes.

Daughters of Scotland.—The Daughters of Scotland will hold their regular monthly meeting to-night at the Forsters' hall, commencing at 8 o'clock, when the usual social time may be enjoyed by the members, who are requested to attend.

New Construction Company.—The Victoria, Vancouver Development and Construction Company, Ltd., has been incorporated with a capital of five hundred thousand dollars divided into one hundred thousand shares. The head office of the company is in this city and as its name implies the object of the company is to do a general construction business.

Want Foreman Retired.—A petition has been addressed to the provincial public works department, as a result of a public meeting recently held at Hope, asking for the retirement of A. E. Raab from the position of road foreman, and the cancellation of the authority of D. G. Sutherland, district road superintendent, over that part of Yale lying south and west of North Bend. The matters complained of will be investigated by the minister of works. In connection with a request from the same district that government checks be made payable at par in the riding, the government has made arrangements with the Royal Bank of Canada at Hope, which will cash checks hereafter without discount.

Legislation for Architects.—As a result of the recent meetings here and at Vancouver of the newly-formed B. C. Society of Architects, steps are now being taken by the members of the profession to prepare permanent legislation to be asked of the provincial house in January. Among the proposals are a code of ethics for members of the profession, a uniform scale of charges, a uniform contract between owner and builder and between owner and architect. The draft of the bill for the incorporation of the association and the regulation of the interests of the profession in this province has been approved and it is now ready for the meeting of parliament in January next.

Young People's Branch Meet.—The Young People's branch of the W. C. T. U. held a meeting last evening at the home of Mrs. Brom' y-Jubb, Oak Bay avenue, when a considerable amount of business was transacted. Different committees were formed to arrange the programme for the Halloween festival which is to be held at the Alexandra Club on Saturday evening, October 26. The suggestions submitted were most ingenious and some decidedly weird and surprising things are to take place which will make for the merriment of the guests. Last evening the members were delighted to have with them their honorary president, Mrs. Williscroft, who has been out of the city for some months. One new member was welcomed, and the meeting was adjourned at a late hour the branch to meet again October 17.

PILOTAGE REPORT.

Committee of Board of Trade Met Yesterday to Consider Report for Presentation to Council.

At the last meeting of the council of the Board of Trade some inquiries were made with respect to the pilotage situation at this port, and it would appear that some members are of the opinion that notwithstanding the fact that the Board has been engaged in the subject for the last six years, nothing has been accomplished.

Yesterday the pilotage committee of the Board of Trade met to draft a report to be presented to the council at their meeting on Tuesday next. The committee yesterday received some information kindly furnished by the pilotage authorities of the port and met to consider the nature of the report which is to be made.

After considerable discussion it was drafted and will come up before the council next Tuesday.

NEXT SUNDAY'S CONCERT.

Some Features of the Programme to Be Rendered.

The two concerts already held in the Victoria theatre on Sunday evenings under the auspices of the Unitarian church have met with such approval as to warrant a continuance of the undertaking and the third concert will be held next Sunday beginning promptly at 8.15 p. m. The large attendance at the former concerts has been accepted as most encouraging to the promoters and the attempt to drive home pertinent truths which has been made in the addresses has been so well received by the public that there is every confidence the concerts will accomplish some good work in the city.

Next Sunday the programme will be of more than ordinary excellence. Prof. Bant's band will again lead the singing and render the instrumental selections. Two soloists have volunteered their services. These are Alfred A. Codd who will sing "When I Survey the Wondrous Cross" (Mozart) and Mr. R. B. Mackenzie, a tenor, both of whom are in popular favor in the city.

Programmes will be distributed and the congregational singing will be one of the most acceptable features of the evening. Rev. S. E. Lindridge, B. D., will deliver another popular address on one of the themes necessary to the development of the work which he is promoting in the city. This is understood to be the solidification of the untapped moral energies of the citizenship in some organized work for the uplift of local humanity.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Oct. 4-5 a. m.—The pressure is increasing in the Pacific states and British Columbia, the western low area has crossed the Rockies and overlies the prairie provinces and the middle west states, with centres of disturbance in Manitoba and Utah. On the immediate coast the weather is chiefly cloudy, but weather conditions are generally fair from the Pacific to the Lakes.

Forecasts.
For 36 hours ending 5 p. m. Saturday.
Victoria and vicinity—Light to moderate winds, generally fair, with stationary or lower temperature.
Lower Mainland—Light to moderate winds, generally fair, with not much change in temperature.

Reports at 5 a. m.
Victoria—Barometer, 30.00; temperature, 42; minimum, 42; wind, calm; rain, .00; weather, clear.
Vancouver—Barometer, 30.02; temperature, 40; minimum, 40; wind, calm; rain, .04; weather, cloudy.
Kamloops—Barometer, 29.84; temperature, 42; minimum, 42; wind, 6 miles W.; rain, .14; weather, clear.
Barkerville—Barometer, 30.10; temperature, 30; minimum, 30; wind, calm; weather, cloudy.
San Francisco—Barometer, 29.74; temperature, 54; minimum, 52; wind, 4 miles W.; weather, clear.
Edmonton—Barometer, 29.80; temperature, 38; minimum, 38; wind, 10 miles N. W.; rain, .04; weather, clear.

Rain, .00 inch.
Bright sunshine, 7 hours.
General state of weather, fine.

Dr. Tolmie Buys Ranch.—Dr. S. F. Tolmie, of this city, local representative of the Dominion live stock branch, and president of the B. C. Agricultural Association, during his recent visit to the Okanagan purchased the 129 acres contained in the Roberts Brothers' holdings near Enderby. The ranch has a picturesque river frontage and is well adapted for mixed farming. It is Dr. Tolmie's intention to clear and develop the land without delay.

"The Gaby Glide," "Oh! Mr. Dream Man"

And Over a Hundred Other Pieces of Popular Sheet Music for
Only 5c a Copy

There was a large crowd at our store yesterday, who took advantage of the extraordinary sale of sheet music. However, there is still an opportunity for you to get your quota at this insignificant price—5c per copy—for the sale includes over a thousand copies. Represented in this clearance are over one hundred of the late popular pieces, such as: "Alexander's Ragtime Band," "Mister Baseball Fan," "I'm the Guy," "That Loveable Rag," "Maid in the Moon," "If You Talk in Your Sleep, Don't Mention My Name," "Everybody's Two-Step," "My Little Loxin-Honey Man" and "You Are the Ideal of My Dreams."

Some of these songs formerly sold at 35c, but we need the room they take up, consequently they are all going at 5c.

Don't fail to take advantage of this opportunity to complete your library of popular sheet music.

SPORTING NEWS

CONDITION A BIG FACTOR IN RUGBY

Speed Will Also Be Made One of the Qualifications by the Eastern Coaches

Great stress is being laid on condition in eastern Rugby circles this season. All the coaches of the big teams are emphasizing the necessity of the players being in perfect condition before the season opens. Shaughnessy of McGill and Dr. Galvin, the new coach of the Ottawas, are the most emphatic of the coaches, both insisting that no player who does not turn out regularly be allowed to play on the teams. Speed will be an outstanding feature of the eastern Rugby this year. Every one of the senior teams in the east is working towards that end. It will mean faster and more scientific Rugby than the fans have ever had before.

Dode Burkhart has been elected captain of the Torontos this year. Dode is a star left wing man, and should be able to handle the O. R. F. U. team. Norman Clark, the former Alert wing man, has turned out with the Tigers.

Ottawa College expect such large crowds at their games that they have secured Lansdowne park in Cornhill, Sheeley, Ginter and Heffernan, Father Stanton has a superb wing line.

The De Gruchy boys will play with the T. A. A. C. Sc' will Charlie Pace, Pete Flett, Shirriff, Fowch, Thompson and Ross.

Med Brock, the Olympic runner, who has been trying out for the Varsity team, is not likely to make it. He cannot catch the ball.

It is reported that Leckie, the well known half-back, has returned to Queen's.

The Tigers are not very confident of their line. It is said to be weak this year.

Jack Newton has been spending all his energies in getting the Argos into condition. He says there will be no signal practices until all the men are in good shape.

O'Connor, an American player, is making good with M. A. A. A.

RESERVE LIST OF THE RUGBY CLUBS

Here are the names of the talent listed on the rolls of the various Rugby clubs:

James Bay.
C. E. Straker, Al. Jeffs, S. L. Wilson, B. E. Scott, Jack Tait, C. Brown, W. Day, E. S. Tuck, W. S. Newitt, W. C. Ross, W. N. Kennedy, S. E. Heald, J. C. Houston, J. C. Garron, K. McDonald, M. Cole, J. C. Newmarsh, A. R. Morton, C. D. Vincent, C. H. Stork, R. D. Travis, J. M. Simpson, T. D. Roberts, H. S. Flett, W. Newcombe, H. Ross, G. Dixon, D. Thompson.

Wanderers.

CANADIAN RUGBY.

Practice, Beacon Hill.

CANADIAN ATHLETIC STAR

JACK DARRAGH.

From a "bush" hockey organization, to a world's champion ship club, is some jump, take it from us, but that is what Jack Darragh, the clever Ottawa forward, accomplished during the winter of 1911. Two years ago he was unheard of, while to-day he is one of the most sought-after men in the whole of Canada. The Patrick boys are after him, and there is strong probability of Darragh figuring on the Victoria club in the B. C. H. L. this season.

Darragh's introductory into professional hockey ranks was somewhat unexpected, but the Ottawa Kid made good from the start and what is more, played good enough hockey to win for himself the position of rover on a Stanley cup aggregation from his first appearance on the ice. The writer of this story accompanied the Ottawas to Montreal when Darragh was induced to turn pro, and the performance of the youngster on that occasion against veterans of years' experience was really remarkable. The Ottawa club, with Darragh's help, went on and won the N. H. A. championship, also the Stanley cup, losing but three games of the entire eighteen matches that were played in 1911. They completed this record by winning the \$2,500 professional series in New York and Boston.

Straight hockey at all times is what Darragh relies upon to pull him through and it is for his steady, persistent plugging, that Darragh has become noted. He is not such a fast skater, but his long, sturdy strides carry him over the ice at a clip that soon wears down the fellow who plays by fits and spurts. As a goal-getter Darragh was one of the leaders last year, even though the Ottawas club did not win the championship. He was the most reliable man on the Senators' roster last winter, and if the Patricks succeed in bringing him west the coast fans will have a chance of looking over the best hockey find in recent years.

The Victoria West junior football team for Saturday's game is: Goal, E. Stocks; fullbacks, A. Robertson and J. Shakespeare; halfbacks, C. Hardie, L. McKenzie and F. Simpson; forwards, C. Carroll, Baker, T. James, S. Sherrett and G. Sherrett. Reserves, Semple and McArthur.

H. M. S. Algerine's football club will play the Victoria Welsh Rugby club a practice match to-morrow afternoon, and the game will take place on the Canteen grounds and the kickoff is slated for 4 o'clock. The Welsh team: Fullback, Leeder; three-quarter backs, Hayden, Richmond, Hill and Wager; halfbacks, Rees, Dal Thomas, (capt.); forwards (to be selected from) Llew James, Dal Davis, W. Davies, B. Watkins, J. Heald, Lomas, Campbell.

With the exception of Wilkie and Whittaker, Victoria's professional soccer club will be at full strength again this year. Condon, Gillespie and Campbell, recently of Winnipeg, and Smart and Josh, of California, are the new men. The team will hold a practice at the Royal Athletic park on Sunday morning at 10 o'clock. All the players are requested to be on hand.

The Second Saturday in Our New Store Will Find Us Ready to Meet Our Usual Heavy Week-End Trade

We have been the hardest-working people in Victoria the last few days, arranging our new store into—as we planned it should be—one of the most modern and best equipped men's and boys' clothing and furnishing houses in Western Canada. We have at last got things into thoroughly presentable shape and have every facility at hand to give you proper attention and big values to-day and to-morrow. Come in, whether you buy or not. Bring the family. Our new store is worth inspecting.

Four Big Values in Men's Suits

\$15.00 \$20.00

Least our \$15 Suits be judged by their modest cost, we wish it understood that they are meant, not for the men who purchase "cheap" clothing, but for those whose first requirement is quality and who would consider "cheap" clothing dear at any price. They are mostly in blue serges and tweeds. We invite a most critical examination of them:

If economy is a consideration, our showing of suits at \$20 will interest you. It is certain that no more attractive examples of style and quality will be secured at that price. It is doubtful if the same value will be duplicated elsewhere. Our special features in this line are brown tweeds in a Scotch Cheviot finish and our standard blue serges.

\$25.00

This line of clothes have created a unique standard of value, and admit of no comparison with garments ordinarily offered at that figure. They encourage economy, with no restriction in the matter of quality or style. Fall styles in new models showing an attractive variety of Scotch tweeds, worsteds and serges.

\$30.00

These garments cannot be judged by the standards of ready-to-wear clothing of the usual sort. In their perfect fit, fine tailoring and exclusiveness they offer the advantages of custom-made apparel, differing only in their inexpensiveness. Men who contemplate having a Fall Suit made to order will do well first to examine the merits of this line of clothes. Styles and patterns for every taste.

Boy's Suits and Overcoats for Fall and Winter Wear

You won't find better Boys' Suits or Overcoats than ours. You may pay more, but you can't get better style, better fabrics nor better workmanship. Our Boys' Garments appeal to parents who want the best quality and style at moderate prices. Bring the boy up on our second floor and inspect our Tweed and Serge Fall Suits and Overcoats for him at

\$7.50 to \$10.00

Men's Fall Hats

We are showing a startling variety of Fall creations in new Tweed Hats for young men. Smart shades that will meet any taste, \$2.50. Our new English Felt hats are the talk of hatdom. Fur felt and brush effects. Satin lined and unlined. All popular shades, \$3.00, \$3.50, \$4 and \$5.00.

Nice Showing of New Shirts

Of the celebrated American lines—Arrow and Manhattan. Woven fabrics of beautiful color and design, are splendidly tailored and will fit you properly and comfortably. Come in and pick yours out. \$1.50 to \$3.00.

You'll Like Our Clothes Rgd.

FITZPATRICK & O'CONNELL

1017-1019 Government Street, Near Fort

W. Richards, A. Griffiths, Bert Irish and Luge.

It is just possible that the B. C. Agricultural grounds will be converted into an athletic field. A proposal to spend \$2,000 in fixing up the grounds has received favorable consideration, and the grounds may be finished for next spring.

The Victoria West second division team to play the North Wards to-morrow will be chosen from: McArthur, S. Stewart, S. Ross, R. Stewart, Sedger, Wannicker, Vincent, Davis, Youson, C. Brown, A. Muir and S. Ferris.

Eastern sporting writers are worrying over the coming "war" for hockey players. Lester Patrick says there won't be any battle, he will simply step in and take the players that he requires. It is that spirit, shown by the backers of the B. C. Hockey League that has earned for the Patrick boys the support of every true sporting enthusiast in Victoria.

The James Bay Athletic club will send a string of four or five boxers to a tournament at Vancouver on the 18th and the same number to Seattle on October 23.

After frequent outbreaks on the diamond and being the cause of a disastrous strike by the Detroit Tigers, which virtually put them out of the race, Ty Cobb has sufficient confidence in himself to demand \$15,000 for his services next season. It is safe to say Cobb will receive a hard turnover at the hands of President Navin.

Baseball franchises in the big leagues are somewhat costly articles to deal in. The New York Giants' franchise could hardly be purchased for \$3,000,000, and some of the others, such as the Philadelphia Athletics, run to nearly the same figures. The Toronto club is estimated to be worth \$150,000. The Giants in one season sometimes makes as much as \$250,000, which would pay 10 per cent. interest on \$2,500,000.

The Pacific Coast Cricket Association has decided on October 26, 28 and 29, Saturday, Monday and Tuesday, as the dates for the three-day match between the Spokane A. C. and the Victoria team.

Baseball franchises in the big leagues are somewhat costly articles to deal in. The New York Giants' franchise could hardly be purchased for \$3,000,000, and some of the others, such as the Philadelphia Athletics, run to nearly the same figures. The Toronto club is estimated to be worth \$150,000. The Giants in one season sometimes makes as much as \$250,000, which would pay 10 per cent. interest on \$2,500,000.

The Pacific Coast Cricket Association has decided on October 26, 28 and 29, Saturday, Monday and Tuesday, as the dates for the three-day match between the Spokane A. C. and the Victoria team.

After frequent outbreaks on the diamond and being the cause of a disastrous strike by the Detroit Tigers, which virtually put them out of the race, Ty Cobb has sufficient confidence in himself to demand \$15,000 for his services next season. It is safe to say Cobb will receive a hard turnover at the hands of President Navin.

**Get the Real Flavor
from your Coffee**

The fact that sometimes your coffee is better than others, shows that something is wrong with the process of making and that some flavor-destroying element is present in greater or smaller quantities.

**Manning-
Bowman
"Meteor" Coffee Percolator**

gives you the *Real Flavor* from your coffee. The bitter injurious principle is entirely eliminated, making the coffee always the same—always delicious, clear and fragrant. The hot water is forced up through the central tube by the automatic circulating process and filtering through the grounds extracts all the good of the coffee, leaving the tannic acid and bitter properties in the grounds above the liquid. *See, one-third less coffee than by other methods. No waste. No waste.*

See our showing on the first floor. There is one here that will suit you, in style and price. We have them from **\$6.00**

MARU HAS ONLY TWO BAD DAYS ON TRIP

CHICAGO REPORTS FAIR PASSAGE FROM ORIENT

Strong Westerly Wind Near Meridian—Many Steerage Passengers Arrive

Although she arrived here only eight hours after the Blue Funnel steamship Proteus, the Osaka Shosen Kaisha liner Chicago Maru, Capt. Goto, reported entirely different weather conditions prevailing during the run across the Pacific from Yokohama. The Chicago had what could be called a fair voyage for this season of the year, while the Proteus had any amount of rough weather. The Chicago left the Japanese port three days ahead of the Holt vessel and got well away from the coast before the big typhoon burst in the Far East.

Only on two days the Chicago was at sea did she encounter bad weather. When nearing the meridian strong westerly gales sprang up and lasted for two days. Big seas were running but as the wind was favorable the Maru kept "plugging" away at her regular speed and lost no time. It is peculiar, the conditions of the weather on the Pacific, that only separated by fifty miles the sailing in smooth water and the Proteus was working hard against a stiff blow.

Training Ship Captain. Among the passengers who arrived aboard the Chicago from the Orient was Capt. Ozeki, who is on his way from Japan to San Diego to take charge of the Japanese training ship Taisei Maru, which has been lying at the California port for a short time. Capt. Ozeki is regularly engaged as a teacher in the naval navigation school in Japan, and was sent out to take command of the training ship following the sudden illness of the skipper of the craft. He stated this morning that he would take the Taisei from San Diego via Cape Horn, to South Africa and then work up the Atlantic to England. From England the training ship would proceed home through the Suez canal. The Taisei is equipped with an auxiliary engine and had aboard a large number of cadets.

Other passengers aboard the Maru included Mr. Sekine, a prominent Japanese merchant of New York, with his wife. Mr. and Mrs. Sekine have been in Japan on a visit and are now on their return to the eastern metropolis. Four Chinese saloon passengers disembarked at this port. As steerage there were 124 Chinese and thirteen Japanese for Victoria.

Light Cargo.

The Chicago brought across the Pacific 3,720 tons of cargo, but only discharged 250 tons at this port. Her stowage was also small, being worth but \$300,000.

NEWS OF THE SEVEN SEAS

URAE LIFEBOAT IS PROBABLY THE BEST

K. Furubotn, Associated With Inventor, in Town To-day Explains the Boat

ONLY 59 DAYS FROM MERSEY TO VICTORIA

Protesilaus Hangs Up New Record From Liverpool—Has All Records Possible

Setting a new record for the 17,000-mile voyage from Liverpool to Victoria via the Suez canal of fifty-nine days the big Blue Funnel liner Proteus, Capt. Milnech, arrived in port yesterday afternoon. The best previous record was about sixty-five days, and the Proteus now has to her credit every possible record which she can hang up on the run from the United Kingdom here.

The Proteus also came close to smashing her own record for the run from Yokohama to Victoria and had it not been for the heavy weather she experienced throughout the trip it is more than likely that she would have set a new mark. Two trips ago the Proteus smashed all existing trans-Pacific records for every line with the exception of the Empress of twelve days and five hours. This trip the Proteus was out twelve days and a half.

Omitted Two Calls. Owing to the dockers' strike the Proteus got away from Liverpool fifteen days late, and during the voyage she picked up ten days. Calls at Perim and Penang were omitted and the Proteus was driven right through from Port Said to Singapore, a fifteen-days' voyage, at top speed. The big steamship reeled off some exceptionally good days runs during her trip across the Pacific, running over 350 knots.

For a freighter the Proteus has remarkable speed and is without a doubt the fastest ship of her class. After smashing the trans-Pacific record the Proteus, when steaming from Seattle to Tacoma, fell in with the fast steamer Chippewa, and in a race the big Blue Funnel ship averaged over sixteen knots. She easily won the race. It was expected when the new steamship Talthybius was placed in service she would break the speed record from the Proteus, but so far the latest of the fleet has failed to reveal the speed expected of her.

Bad East of Meridian. As was announced in last night's paper, the Proteus had a rough time coming across the Pacific. From Yokohama to the Meridian the weather was very severe. Strong westerly gales blew for several days at a stretch and the vessel lurched and fell badly in the "dunkies." Some water found its way into the wireless operator's room and the decks of the vessel were continually awash. The last half of the voyage, however, was less boisterous, although it blew hard just before the vessel came into port. The Proteus will be back here on Monday to discharge 12,000 tons of cargo.

HIST! SPOOKS APPEAR AT THE OUTER DOCKS

The outer docks have a sensation. Spooks have been seen there; spooks in all the traditional robes and trappings of spookdom as prescribed by the highest authorities.

Two of the men who guard the gangplanks of the liners while they are berthed here to prevent Chinese from gaining admission to this country, will swear that they have seen the grotesque outlines of the unknown spirits appearing and disappearing while they are keeping their lonely vigil at night.

Last Wednesday night the Blue Funnel liner Titan spent the whole night at the docks. As a result two men were stationed to watch the plank. While the weary hours of dark were slowly passing by the spooks appeared, at least the men said so. One of the men saw the figure coming down the dock, and at a first glance thought it to be the figure of a woman. Closer observation, however, revealed to him the fact that it was not an earthly form. He watched it. Suddenly it disappeared.

The corpse of the Chinaman was placed aboard the Titan in the afternoon. Was it the spirit following along? The man of the plank is not alone, in the belief that it was a spook, but another water-front man were superstitious!

CROWN OF GALICIA.

The Harrison liner, the Crown of Galicia, which was due at Victoria this morning, had not been reported by Tatoosh at noon. She will probably be along early in the evening. She is the first of the Harrison fleet to call at Salina Cruz.

On his way to Newport News, Pa., to give demonstrations of the new Urae lifeboat before the supervising steamboat inspector and the quartermaster-general of the United States, Konrad Furubotn, of Seattle, who has the agency of this craft for America, passed through Victoria today. Mr. Furubotn gave the Times a call and explained the new lifeboat, which is now to be used on the steamers on the Great Lakes and also by a number of ocean-going ships.

The Urae lifeboat is egg-shaped, and was invented by Capt. Brude, a Norwegian. To demonstrate the sea-going qualities of the craft, Capt. Brude made a trip across the Atlantic in mid-winter of 1904-05. The lifeboat was only 18 feet in length, and he was accompanied by three companions. He left Alesund, Norway, and made Newfoundland via the Shetland Islands in 67 days. Sail was the only means of propulsion used.

One of the lifeboats is now being built at the Seattle drydock and construction yards, at Seattle, and in it Capt. Brude will give a demonstration of the Pacific this winter. He will sail the small craft off the mouth of the Columbia river, one of the worst places of water on this coast. The lifeboat does not take up the same amount of room on a steamer's decks as the ordinary lifeboat carried. The Urae craft is far superior to the standard lifeboat, as it can be made airtight and shipwrecked people are not exposed to the elements. This craft is lowered into the water by means of ordinary davits.

The Urae is built of galvanized steel plates. The entrance to the inner part of the boat is through hatchways or big manholes, one forward and one aft, both of which can be shut from the inside, so that they make the boat completely watertight. The size, which can hold about 40 persons, viz., 18 feet in length, seems to be the most suitable for passenger ships. The boat is provided with a sliding keel, which prevents the boat from drifting and rolling. Besides this, in order to prevent the rolling a solid broad fender is applied, which also strengthens the boat.

On the top there is a rail and a lookout tower, from where the helmsman has open round about view, through four glazed portholes. It is therefore controllable both from the inside and the top. The boat is provided with a double-bottom, which is divided into four watertight compartments, to which there is access through manholes. These compartments are intended for the storing of provisions, water and other necessities.

All along the inside of the boat, benches are applied, which are partitioned into several compartments, for additional water supply and provisions. In the middle part of the boat is the box for the sliding keel. The latter is made in such a manner as to permit of the keel being completely pulled up, so that the boat, when stranding or in other similar circumstances, always has her egg-form and can therefore be sailed ashore or suffer being washed ashore without injury. In the lowest part of the double bottom amidships is sufficient fixed ballast.

SHIPPING INTELLIGENCE

Oct. 2. Los Angeles, Cal.—Arrived: Port Bragg, Port Bragg; San Jacinto, Gray's Harbor, Hornet, Columbia River; St. Helens, Portland. Sailed: Governor, Puget Sound; Melville, Columbia River; Jim Butler, Tacoma; Olympic, Columbia River; Daisy Mitchell, Columbia River.

Seattle, Wash.—Arrived: Steamers, Ald, Southeastern Alaska; City of Seattle, Skagway; Thor, Tacoma; ship Vericorvik, Glasgow; schooner Transit, Tacoma; barge St. James in tow of tug Gollah, Tenino. Sailed: Steamer Admiral Sampson, Southwestern Alaska; Thor, Orient; Oleum, Virginian, Tacoma.

HAD A JONAH ABOARD THE WHALER LETITIA

San Francisco, Oct. 4.—The whaler Letitia, just returned from the Arctic, carried a Jonah on its trip. The crew, however, made no attempt to use him for whale bait, for the bad luck he attracted undoubtedly rested upon his own shoulders.

F. C. Hempstead, an English moving picture man, engaged passage on the Letitia a year ago, but his outfit was lost aboard the Titanic. A duplicate outfit missed the whaler at Dutch Harbor, Alaska, and Hempstead recounted to-day the adventures of the ship, which he failed to reproduce in pictures.

To begin with, the whaler encountered schools of whales, icefields, hurricanes, gigantic seas and other spectacular sights of the deep. Then the captain fell from the rigging and was drowned while his boats were busy

among the whales. Hempstead took roll after roll of snapshots with a small camera to show his backers what might have been so, but ill-luck pursued him and on development every picture proved to be out of focus. "A million dollars worth of bulky stuff was lost," moaned the picture man with tears in his eyes.

JAPAN NOT MAKING PORT TILL SUNDAY

Empress Unable to Make William Head To-morrow—Rich Cargo Aboard Her

Latest advices received from the R. M. S. Empress of Japan, Capt. Robinson, state that the vessel will not arrive here from the Orient until early Sunday morning. The white liner is one day behind time, which is due principally to heavy weather, reported prevailing on the Pacific at the present time. The Empress was 1,200 miles from Victoria Wednesday at midnight.

The Empress generally managed to reach this port on Saturday and give the Vancouver officials the Sunday end of the work. With the Japan, however, the Victoria officials will have to work on their day of rest. The white liner is bringing in a large list of passengers, having several hundred Orientals aboard. Her saloon is also well filled. She has a full cargo of 3,000 tons of freight, of which several hundred tons is for Victoria.

Locked in the strongroom of the Japan is a rich cargo of silk, which was loaded at Shanghai. It is worth \$1,000,000 and is consigned to New York.

Mexico Maru Leaving. To-morrow afternoon the Osaka Shosen Kaisha liner Mexico Maru, Capt. Kyubashi, will leave port for the Orient. The Japanese steamer is being loaded in record time by the stevedores at Tacoma. She only arrived here last Friday night and has put off 5,000 tons, and is now completing taking on her 7,000-ton outward cargo.

'FRISCO'S MARINE NEWS.

San Francisco, Oct. 4.—The British ship Oweene recently chartered by Hind, Ralph & Co. for wheat from Portland to the United Kingdom at \$28. 6d. has been re-chartered by Bal-four, Guthrie & Co. for the same voyage at an advance of 2s. 6d. The Oweene is now 41 days out from Tacoma.

The Norwegian steamer August, now in the Orient, has been chartered by the Santa Fe Railway for ties from Japan to San Diego. The Northumbria and the Indra, two British tramps, have already been fixed for this business. The Northumbria is under charter outward to Andrew Weir & Co. for general cargo from the Sound to the Orient, and the Indra is under charter to Strauss & Co. for wheat, from Portland or the Sound to the United Kingdom. The August has no outward charter as yet.

The Kosmos Line states that the Alexandria will come from Pisagua to San Francisco direct and not to Victoria, as was reported. She is due here shortly, and will sail from Hamburg November 2.

The Harrison line states that its steamers will make Glasgow the last port of call instead of Liverpool on the outward voyage to this coast, commencing with the Crown of Cordova which left Glasgow Wednesday. The voyage from Antwerp to San Pedro will be done in 70 days.

The Union liner Moana arrived from Sydney yesterday, being the only import arrival of the day.

Fred Jensen, owner of the Jensen Line, who operates the Norwegian steamer Jason between here and Mexico, has returned from a trip to Hamburg.

SHORTAGE OF COAL.

Famine Feared at Vancouver Unless Situation Improves Within Month.

Vancouver, Oct. 4.—Supplies of coal in this city are now exceptionally low, and unless the situation materially improves during the next thirty days, retail dealers fear there may be a coal famine. Both large and small consumers are already feeling the pinch to some extent, although the requirements at this season are but little more than half as great as in the winter months. Then the city will burn about three times as much coal as it does now. The trouble, it is said, lies principally

- 9—Side buckles to produce smooth fitting back.
- 10—Watch guard in lower left pocket for fob or chain.
- 11—Pencil or fountain pen pocket. Opens in seam of upper left pocket.
- 12—Vestee, detachable; attached with gold pins; adds dressiness.

TROUSERS

- 13—Permanent crease; keeps trousers pressed and prevents trousers bagging at the knee. Patented June 16, 1908. No. 890792.
- 14—Cash pocket within right hand side pocket. Permits carrying keys, knife, etc., on the same side without confusion.
- 15—Guard in watch pocket to prevent theft or loss.
- 16—Pencil pocket in right hand hip pocket. Very convenient, especially when no coat or vest is worn.
- 17—Tunnel belt slides, hold trousers firmly over hips and keep belt in place.
- 18—Imported tip horn button at front of waistband. Adds tone and smartness.
- 19—Silk belt loop to hold belt in position.
- 20—Improved secret money pocket on inside of waistband. Closed and hidden by buttoning to inside suspender button.
- 21—Our specially designed side pockets. Big, roomy and shaped especially to follow the form of the hand.
- 22—Hanger of silk braid.
- 23—2 1/2 inch turn-up for soft turn-up or permanent cuff.
- 24—Telescope waistband. Permits enlarging or reducing waist measure without gathering cloth. Patent applied for.

SEVEN LONG SHOTS FIRST AT WILLOWS

DIVIDEND RECORD FOR B. C. RACING

Track, Riders, Stewards,
Horses, All in Poor Shape,
Mutuels Take \$29,805

Racing at the Willows yesterday had all the earmarks of a close corporation operated from the jockeys' room. It can be argued that a horse ran a magnificent race making up heaps of ground after a bad start, and it can be argued that the front ones, fortunate in the get-away, waited for the rear one; it can be argued the soreness prevented good horses winning, but all the arguments begin to look like very small potatoes when it happens that the dividends for an afternoon so into double figures for each race of a seven race card, and that three of them are over the \$20 mark. Dividends to win paid yesterday were \$27.20, \$12, \$21.80, \$25, \$11.40, and \$15.

Throughout the Vancouver meeting of sixty days, the present Victoria meeting, and all other meetings that have been held with the mutuels at Victoria and Vancouver, there has never been an occasion when the dividends for the day went above double figures for every race on the card. Owners were astray on their own horses, and towards the end of the day one said, "It's gone, but I think I'll bet \$2 on my own horse. I do know the horse is in shape."

September 14th at Vancouver there were six races on the card that paid double figures, but the other one was below, and never again during the sixty days there this summer has there been anything like the pay-outs of yesterday afternoon. All kinds of excuses and theories were advanced for it, one being that the Willows track is in such bad shape that horses cannot run safely on it by the rails. Many good horses are lame because of the track and this excuse is given for the failure of the horses that the form book showed the best.

Reene W. and Meade were the horses that ran according to form, but Eddie Mott, the favorite in Meade's race last, the usual late run of Bailiff's daughter did not come yesterday afternoon, even with Pickens riding her. The defeat of Matador, front running in the straight, where the jockey sat up and let two horses pass him, the disappointing race of Elmetta Hamilton, were things that swelled the dividends and gave the racing yesterday the appearance of a close corporation.

The procession started out with the first race where there were three fast 1-2 furlong horses and two outsiders. Two of the fast ones went up the hill and the other ran second. Calcium, one of the outsiders with very little play, won, paying \$27.20. The Indian River stable put Coat Found over from a field of ordinary two-year-olds in the second race, the horse having

never been on the Willows track before, and having raced in the rear van four times early in the summer at Vancouver. Binocular had never been out over six and a half furlongs, and with horses like Elmetta, Hamilton, Phillistina, Third Chance, Alder Gulch and Cole, the latter having recent performances that placed him well up, Binocular did not figure in class, quality, speed or distance. In the race, however, he was always in the front and the others never went up to him.

The same thing happened in Canapa's race. The horse was striding strongly before the other horses opened up, and the boy on Slacus looked in front at Canapa, round at the horses to his right, and then gave his horse a dig with his heels. Slacus' boy let Don Enrique go ahead of him, and then looked after Zinkand, Meade, and Reene W. appeared to run on their merits, although the favorite in each race was beaten, but the last event of the day was the most remarkable of all.

Ocean Shore reared in the air on his hind legs when the barrier went up, and the attendant was still holding the post when the horse took the ground again. When the horse got away the field was entering the turn. Ocean Shore took the top bank and was still last at half a mile. In the final half Matador went to the front and was running strongly when his rider sat up

on him in the straight. Critic stuck in the dirt at the back of the track, and Ocean Shore galloping round after the slow field, overhauled Matador down the straight and won the race. It can be called a grand ride for Ross, and a fierce ride for the others. Ross, however, is riding well, for out of seven mounts yesterday he was six times in the money.

Owing to the state of the track and the harm done to horses upon it, the fields are narrowing down and becoming smaller. Many of the horses have already left the Willows, and one race with 12 entries had to be scratched yesterday because of the twelve there were not sufficient of them without sore fellocks to make a field.

There was no time made on the track, the race won by Reene W. being six seconds slow. The Ocean Shore joke took 5 2-5 seconds longer than usual for the mile. They were 4 2-5 too long in the Meade race. The Canapa race was 1-5 slow. Binocular for the first time over 6-1-2 furlongs occupied four seconds longer than the record. Coat Found took five seconds longer for five furlongs, and Calcium was 3 2-5 slow.

The attendance was not as big as during the beginning of the meeting and there was a drop below the Derby day figure in the betting ring. The seven races totaled \$23,505.

VICTORIA MANAGER "STUNG"

BADLY IN RECENT TRADE

President McConnell Regrets Deal Whereby Kennedy and McCreery go to Vancouver in Exchange for Eli Cates

That Manager Wattelet received much the worst of the bargain when he traded Pitcher McCreery and Eddie Kennedy for Eli Cates, the Vancouver

the story, because the deal is such a one-sided affair. To the Times this morning, President McConnell stated that the deal had gone through. He regretted that it had been made, but did not intend to take any steps to block the transfer of the local players.

"Manager Wattelet is now after six or eight new men," said President McConnell, "and I intend to get a winning team at all costs. In securing Cates, Victoria has a utility man who can play any position on the team. Such a player would have been of vast help to the Bees during the past season. While Kennedy and McCreery will be hard to replace, I am confident that Victoria fans will not regret any changes made by the club when the 1913 season opens."

Below is an extract from a Seattle exchange, relative to the deal: Some of the magnates in the North-

western League seem to have a penchant for pulling off trades which would make a man who did business with David Harum appear like a wise man in comparison.

Wattelet swapped Eddie Kennedy and Pitcher McCreery to Brown for utility man Eli Cates. It is understood that the trade is one carrying no money consideration, but was an even swap.

This is considered one of the most one-sided deals ever pulled off in the circuit, and is not even in the same class as the trade which gave Seattle Melkie and Nil for Concannon and Chick. President Watkins did get \$1,000 for his two stars from Dugdale, but it looks as if Wattelet secured nothing but some unenviable notoriety as a poor judge of ball players.

Vancouver, already one of the strongest clubs in the league, will gain added strength for the start of next season, while Victoria will have a man who can play utility roles, but is considered all in as a regular player.

VICTORIA POSSESSES FUTURE WORLD'S SPRINTING CHAMPION

Hal Beasley is One of the Most Promising Spiked Shoe Artists on the Continent. His Wonderful Record as an Athlete

That the world's sprinting champion-ship lies within the reach of Hal Beasley, the crack J. B. A. A. spiked shoe artist, is the opinion of many of the best athletic stars in Canada and the United States. The recent performance of this phenomenal youngster at New Westminster, when he equaled the Canadian record for the century, in winning the British Columbia championship, stamps him as an exceptional sprinter, while the fact that he is but twenty years of age, shows that he has everything before him.

Sure Winner at Berlin. Beasley, to-day, is Canada's great hope for the 1916 Olympiad at Berlin. The youngster intends to win himself for these games, and for the next three years every race that he will enter will be part of the special preparation he intends going through to meet the world's best at the German capital, four years hence. Weighing but 125 lbs., Beasley realizes that he must put on a little weight, and will endeavor to build up his body, so as to give him the necessary strength to carry him through a hard series of heats and semi-finals. He will endeavor to carry off the Canadian championships, which are to be held at Vancouver next year. The British Columbia titles are also at the mercy of the local crack. He will also compete in several meets in the state of Washington.

Knox Boosts Beasley. Walter Knox, coach of the Canadian track team at the Olympic games, told Beasley that all he needed to become a world beater was the weight. Careful training will bring this about, and Victoria may well feel proud of her athletic star.

Beasley is the son of H. E. Beasley, manager of the E. & N. railway, and is connected with the real estate firm of Green & Burdick. He is but twenty years of age and has been running since he was a mercurial youth. His record, so far as it has been possible to compile, is as follows:

Junior Championships, Canada.

1000-100 yards, 10 2-5 sec.; 200 yards,

24 2-5 sec.

Indoor.

30 yards, 5 1-5 sec. (equal world's record).

B. C. Championships.

100-100 yards, 10 1-5 sec.; 200 yards, 23 sec.

Astoria, Ore., Pacific Coast Championships.

100 yards, 2nd, 10 sec.; 200 yards, 2nd, 22 2-5 sec.

Vancouver Island Championships.

100 yards, 10 sec.; 200 yards, 22 1-5 sec.; 400 yards, 52 sec.

April 12, Portland, Ore., Columbia Indoor Meet.

100-60 yards, 2nd, 5 3-5 sec.; 200, 2nd, 23 sec.

May 11, Olympic Trials, Vancouver.

100 yards, 2nd, 10 sec.; 200 yards, 2nd, 23 2-5 sec.

May 18, Y. M. C. A. Meet.

100 yards, 2nd, 10 1-5 sec.

June 1, Eaton Games, Toronto.

200 yards, 2nd, 22 2-5 sec.

June 8, Olympic Trials, Montreal.

100 yards, 4th final to Howard, McConnell and Bobby Kerr.

July 16, Olympic Games, Stockholm.

100 metres, 12th heat, 3rd, 16 4-5 sec.; 200 metres, 5th heat, 3rd, 44 4-5 sec.

August 3, Carnarvon, Wales.

120 yards, handicap, scratch, 12 2-5 sec.

Sept. 2, Scotch Sports, Victoria.

Reproductions of Fine Old Sheffield Plate

A Collection Worthy of Our Envid Reputation

We say "reproductions" because the genuine old Sheffield Plate is no longer manufactured. The pieces which we are at present showing are plated on copper and finished in antique classic designs.

SPECIALLY NOTEWORTHY ARE THE FOLLOWING

SOUP TOURINES CANDLESTICKS
CAKE BASKETS SALT AND PEPPER SETS
SAUCE BOATS TEA CADDIES

NOTE—We particularly want to draw your attention to two very handsome plaques with historic scene depicted in high relief—very suitable for wall decorations.

Domestic Economy

Largely Depends Upon
Small Details

Take the kitchen coal
for instance. Unless it
lights easily, burns
slowly, with great heat,
leaves a clean white ash
with no clinkers, and
has perfect combustion,
it is a source of leakage
in the household purse.

Burn only Old Well-
ington Seam Coal. It
has all the properties of
the perfect coal.

J. H. Clappison have arrived in the city from Hamilton, and is at the King Edward hotel.

Mayor A. E. Waterhouse, of Port Alberni, arrived in the city last evening on a brief visit to the capital.

A. E. Forrest, of St. Elmo, and T. D. Starrett, of Hope, have arrived in the city as members of a deputation to interview the government with regard to the inter-provincial highway, portions of which are under construction in the Hope district. Both of them are old-time conductors on the C. P. R. between Vancouver and Kamloops. A. Lucas, M.P.P. for Yale, will introduce them to the executive.

Rev. Canon Jocelyn Perkins, of Westminster, London, general secretary of the B. C. Church Aid Society, who visited Victoria a few weeks ago, and who has since been travelling through the province with the Bishop of New Westminster, is expected to spend the week-end in Alberni, where he will be the guest of Rev. Lewis Seale. It is unlikely that the well-known clergyman will visit Victoria again before he leaves for the East early next week on his return to England.

Mr. Thomas Muirhead Dougal and Miss Constance Eleanor Fisher, daughter of Mr. and Mrs. W. B. Fisher, 123 Moss street, were united in marriage on Wednesday at the residence of the bride's parents, Rev. W. Leslie Clay. A. A. performed the ceremony in the presence of a number of relatives and friends of the young couple. The bride was given away by her father, and was attended by Miss Elma Blackman, of Vancouver, and Mr. F. B. Fisher was groomsmen. Following a wedding breakfast and reception the newly married couple left for the Sound cities where their honeymoon will be spent, and upon their return will make their home here.

Last Monday at St. Andrew's Church, Sidney, a double wedding took place, when Gertrude Margaret and Ruby Louise, daughters of Mr. and Mrs. T. Wright, of Sidney, formerly of London, Eng., were married respectively to Mr. Thomas Dobb and Mr. John Rea. Both brides were gowned alike in dresses of ivory duchess satin, with the usual veil and orange blossoms and carried bouquets of white carnations. Miss Winifred Wright, sister of the brides, and Miss Sarah Rea, acted as maids of honor, and the Misses Ethel and Violet Wright and Miss Isabelle Godrich, of Vancouver, were bridesmaids. Mr. William Wright, brother of the brides, was the best man, and both brides were given away by their father. After the ceremony a reception was held at Berquist Hall, and afterwards the happy couples left on a honeymoon-trip of the Sound cities. On their return they will reside in Victoria. Both were the recipients of many handsome presents.

The Evening Chit-Chat

By Ruth Cameron

A girl who had the choice between two lovers has just chosen a successful young business man who is making \$2,000 of \$4,000 a year in a profitable little business.

able little business which he has built up himself. The man whom she refused is as good-looking as the first young man, and of a little better social standing, but he has not been successful in business.

The neighborhood with comment on the match, and this is the most common verdict. "Of course she is marrying John (the accepted suitor) because of that good business of his. She used to like Philip mightily well. If that business were his I guess she wouldn't take John quite so quickly. Nowadays girls seem to think money is the only thing."

Now maybe that is true and maybe it isn't. The heart of a maid isn't as much of an open book as these gossip-fancy. Her love for this man may be entirely independent of his business success, but supposing it isn't, what then? Does that mean that her critics had any right to think she cared for nothing but money? No it doesn't.

Behind success are the qualities that make success, and the qualities that stand behind a clean success, such as this young man has made, are qualities which any girl may well admire.

When a girl is fascinated by a successful young man, that does not necessarily mean that she is fascinated by the money he is making. She may be glad of the money and position, but she may care even more for the force and power that makes him capable of making that money.

We never blame a man for admiring beauty in a woman, why then should we think it any more censurable for a woman to admire force and power—the masculine compliments of beauty.

Sometimes, of course, the successful man does not possess these characteristics—his success may have come to him through luck or through undesirable methods—and sometimes, of course, the failure has latent power; but nine times out of ten if you see a young man who has made a place for himself in the world you see a man who has something of power and bigness in him; and nine times out of ten when you see a man in a mediocre position, you see a mediocre man.

The girl whom this man is to marry is a young woman who, by her unusual personality, has won excellent social position, of which he is justly proud.

Yet no one accuses him of being in love with her popularity. They realize that he is rather in love with the personality that makes it possible. Why not judge her feelings as kindly?

As a nation we certainly take a deep interest in wealthy people. We eagerly devour the newspaper chronicles of their doings. We point them out on the street. We are vastly excited if our hostess tells us we are to meet a millionaire. And then, again, the more thoughtful of us are sometimes ashamed of that interest. But after all, need we be? The possession of wealth means that either a man or his father had remarkable force of some kind—something that set him apart from his fellows.

Is it not that force rather than the wealth itself to which we make obeisance, and is that anything to be ashamed of?

624 Yates St. VICTORIA, B.C.

and proved an entire success. It attracted a large proportion of ladies. This is entirely a new feature of the fight game in Australia. Ladies have hitherto kept away, except when now and then an occasional curious member of the sex attended, thinking she would be shocked and astonished to find it was not shocking after all. Hugh D. McIntosh had his wife and Madame Tili, the pretty rich wife of Paul Tili, the imported Parisian boxer, act as hostess and serve afternoon tea to the ladies who attended on Thursdays.

Who will say now that pink teas and pugilistic tourneys cannot be made to harmonize?

Since 1811 the area of the British Empire has increased by two and three-quarter million square miles.

GOES FARTHEST FOR THE MONEY

PROMISE BLOCKS A POLICE COURT CASE

LIGHT SENTENCE IF YOUTH PLEADS GUILTY

Chicken's Bones and Whisky Bottles Not Even Memories to Robinson Till He Awoke

Refusing to accept evidence against an accused that had been extracted by a constable by means of a promise of a light sentence, Magistrate Jay this morning discharged a young man by the name of D. Smith, who was charged with theft of money from a man with whom he had been drinking at an hotel within the municipality. After evidence of the promise had been tendered by the constable the magistrate refused all further evidence, saying it was distinctly beyond the rights of the constable to obtain confessions or information regarding the actions of an accused by means of promises of any kind.

Smith was charged with stealing \$83 from a dairyman named Thomas Alexander, who has a ranch in the Saanich municipality. Smith is a young man well-known in the district, and a resident there for some years. The informant in the action is also well-known there. Both men were at an hotel and had what the informant described as "a sociable tea." The result of the tea was that the hotel people afterwards told the informant he had to be helped into his rig when the tea was over. The young man accused had been in his company, and had helped him to his rig when he left.

Alexander had no actual knowledge as to who took his pocket book and money that was in it, but when he missed it the following morning he returned to the hotel, thinking he might have left it on the bar and that the hotel people had found it and taken care of it for him. They, however, told him he had not left it there, and that Smith was the man who was in his company and had seen him off the premises. Alexander said he thought he had better have Smith arrested and find out if he had taken it. He thought the best way to find out would be to have the court inquire into it.

The promise given by the constable of the municipality, Jack Little, was when he had arrested and accused was giving him to know, he said, after asking him that whatever accused said might be used against him. "I don't say you did take it, I don't know, but if you did, the best thing for you to do is to plead guilty. If you do that you will get a light sentence."

At this stage of the case the magistrate intervened and remarked that anything further the constable had learned from the accused had been by means of a promise and was not to be considered evidence. He explained then to the jury that after the accused made him to accept the charge, the latter had admitted taking the money. The stenographer was directed to strike out the latter remark, and after addressing the accused on the seriousness of the offence for which he had so narrowly escaped punishment, the magistrate ordered his discharge.

While Provincial Constable Owens succeeded in arresting Robert Robinson, wanted for chicken stealing, and having him convicted in the provincial court this morning, the provincial police and the Chinese who owned the stolen chicken and the accused, all failed to account for the chicken. The best that could be done in the way of identification was a small parcel of chicken bones which was unwrapped for the magistrate's observation. Even the Chinese, Sue Kee, was cautious about identifying the bones as those that were part of his lost chicken in life. When the magistrate asked him, he replied that he had never seen the chicken's bones while the bird was in health, but found the bones when he took Constable Conway to the accused's house.

There was further evidence of identification by means of the fact that the accused had failed to completely destroy the feathers of the bird whose bones were found within his premises. Sue Kee was not certain about the feathers being those that had warmed the bones of his young bird, nor was he sure that the bones in court were the bones the feathers found had warmed. However, there was a similarity of color between the feathers and those his lost chickens wore, and the evidence was sufficiently circumstantial for the conviction of the accused.

A cold bottle and a bird were offered by Robinson, who testified in defending himself against the chicken theft charge, that he had consumed five warm bottles, but no bird. His plea was confined to a single statement that he did not know anything about it, giving no proof that he was not lying, and the information that when he awoke there were five empty whisky bottles about him. He had no recollection of the taste of chicken, the bones were absolutely new to him and the whole thing except the five empty bottles was a mystery. The Chinese remarked that his largest chicken was missing, and that the bones shown were fairly large bones. The magistrate remarked that the accused had evidently been sober enough to select the largest chicken, and sober enough to get through the various stages of the chicken from the killing to the bare bones. Therefore he would be fined \$10, and would have to pay 75¢, the amount Sue Kee said the chicken was worth. Failing payment, Robert Robinson would have to go to jail for two weeks.

Allegations that George C. Ridley, of Colwood, threatened to cut his wife's throat and kill the children resulted in his appearance in the police court this

morning, where he pleaded not guilty. He was remanded until this afternoon. The Westholme Lumber Company, contractors for the Hibben block, have been occupying a considerable space at the rear of the building on Langley street. The contractors were given a permit for ten feet of sidewalk, and as they used more, they were to-day fined \$15. A charge against Melville Burnham for taking an automobile without leave from the owner was this morning withdrawn. The charge is under the Motor Act, a person taking a motor without permission being liable, even though the machine is not stolen.

FOUR LITTLE WORDS THAT MEAN A LOT

EXEMPTION OF CHURCH LAND FROM TAXATION

A Consequence of Legislation—Blindly Gulping Down Its Bill of Fare

An example of the legislation of the provincial legislature of 1912, when the government had behind them, in the witty comparison of Parker Williams, a majority like Lord Cardigan's cavalry at Balaklava, "their's not to make reply, their's not to reason why," is to be found in the situation which has arisen on the taxation of church property.

It will be recalled that the legislature last session adopted the statutes as revised by Chas. Wilson, K. C., and A. P. Luxton, K. C., without adequate consideration. Mr. Brewster frequently warned the House of the consequences of bolting everything before it, but his warning was unheeded. One of the consequences has made its appearance and nobody knows what new Joker may turn up at any moment.

At that time the attorney-general pledged the House that nothing was going through which would modify legislation enacted by previous legislatures without an explanation to the House.

The case of St. Andrew's Presbyterian church has brought the subject of exemptions of church property before the council, the city fathers having turned down the request of the church trustees, because the assessment bill for 1912 has been made up, and adopted by the court of revision, and is, therefore, binding on the citizens.

The remission of taxation on the land held by churches, schools, and hospitals in Victoria is estimated at \$7,300, which the city would lose if this case is forced into the courts, with a larger amount next year with increased values of property.

The original act said (Municipal Clauses Act, 1896) in section 170: "Rates and taxes may be settled, imposed and levied upon land or upon improvements within a municipality by the council thereof, subject to the following exemptions, that is to say: (1) Every building set apart and in use for the public worship of God (2) Every burying ground in actual use as such, and every cemetery (3) Every building set apart and in use as a hospital in which the sick, injured, infirm, or aged are received and treated, and the land adjoining thereto, and actually used therewith, not, however, exceeding 20 acres in case of a public hospital, and three acres in case of a private hospital. (6) The buildings of every institution which has for its care and charge an orphan and destitute children, and the lands actually used for the purpose of and surrounding the same, not to exceed five acres."

Now comes the Joker. To the first clause has been added in the revised statutes the words "and the site thereof," which exempts land values in this city to the extent of \$195,000. The city council will accordingly be asked, at the next meeting to pass a resolution petitioning the legislature to amend the act at the next session so that it will be possible to tax land values on all property, by striking out the obnoxious clauses. It is extremely probable that under the act of this session, the whole assessments on ecclesiastical and institutional property could be upset on reference to the courts, should the city insist on the collections already levied.

So far few of the owners of the properties assessed who would be able to secure exemption under this clause have paid their taxes at the city treasurer's office, so that it is impossible to forecast exactly what attitude they will take at this unexpected development. The rebate on taxes does not conclude till the end of the month, so that corporate bodies will not probably be making their payments for another week or two.

Mr. Luxton, seen this afternoon by a Times man, declined to discuss the amendment to the clause quoted above. He thought that the less said about the matter at the present time the better it would be. He did not desire to make any statement on the subject now.

SIKH WORSHIP.

Opening Ceremony to Be Held on Sunday—Parade and Service.

The opening ceremony of the Khalsa Duran, the Sikh place of divine worship, will take place on Sunday next, October 6.

The procession, with Guru Granth Sahib (the Sikh scripture in a carriage of state), will leave Herald street, at 9.30 a. m., making halts of ten minutes each at Government and Yates streets; Yates and Douglas streets; Yates and Quadra; Quadra and Hillside; Hillside and Prior. They will reach the new building on Topaz and Blackwood avenues at 12.30 p. m. At each halt there will be a short

speech in English, and an English opening service in the new building from 3 p. m. to 3.45 p. m. by Professor Teja Singh, A. M. (Harvard) and M. A.; L. B. of Punjab. The public are cordially invited to attend.

HEAD LIGHTS

Bound for Victoria the G. T. D. steamer Prince George, Capt. McKenzie, left Prince Rupert this morning. She is due to arrive here on Sunday morning.

It is expected that the British ship Wilcombe Park will put away to sea early next week with her cargo of grain. She will finish loading at Tacoma by Saturday. Her cargo is for the United Kingdom.

The Island Transportation Co., owners of the steamer Camano, sunk several weeks ago by the steamer Sioux, when the steel steamer ran amuck among a flotilla of small boats at Everett, is about ready to place the repaired boat in commission again. The Camano was practically rebuilt.

The turbine steamer Maheno, of the Union Steamship Company of New Zealand, and which was once on the Sydney-Victoria run, arrived at Sydney recently, reporting a stormy passage from New Zealand. Deck fittings were swept away and several cabins were flooded.

The British full rigged ship Inverness-shire, which loaded lumber at Vancouver last year for the United Kingdom arrived at Sydney recently with lumber from the Sound and reported a very rough trip, several sails having been blown away.

The buying demand for foreign vessels continues, and owners are at a loss as to what prices to ask for their holdings because of the steady advance. The case is cited of a London shipbroker who had a commission to sell a vessel at \$50,000. As the boat was cheap at the price, the broker offered it to clients for \$32,000, and it was immediately accepted. The acceptance was reported to the owner, who replied, withdrawing the boat and stating he would not accept less than \$70,000.

HUGE LUMBER CARGOES LEAVE GRAY'S HARBOR

Aberdeen, Wash., Oct. 4.—During the month of September fifty-five vessels were sent from Gray's Harbor with cargoes amounting to 45,317,000 feet

of lumber. Of this approximately 11,000,000 feet were shipped foreign, while the remainder went coastwise. This fleet, which totalled 28,978 net tons, consisted of fourteen sailing vessels and forty-one steamers. Sixteen cargo vessels were in port taking lumber on Wednesday, and with the arrival yesterday morning of the steamships Coronado, Willapa and Navajo, it is expected that Gray's Harbor shipping will shortly resume its normal condition.

SCHOOL-ATTENDANCE FIGURES.

All Schools Show Increase.—Total About Three Hundred for Month of September.

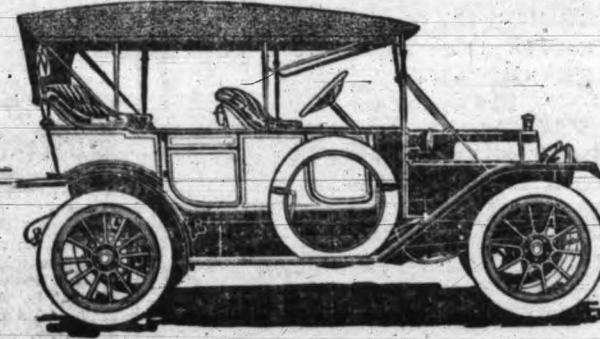

The school attendance figures for the month of September, except those of the Boys' Central, are now available, and allowing the same number for that school as in August, it shows that the school population of the public schools of Victoria has increased three hundred in the month, and that there are over 4,200 on the register. Important schools like the Girls' Central, North Ward, George Jay, and Victoria West show large increases; and in no case is there a falling off.

These figures may be taken as representing fairly faithfully the possible school population of Victoria, as August only had five school days, and accordingly many of the children had not taken their places at that time in their respective classes.

The details of the average attendance by months is as follows:

	Sept.	Aug.
High School	388	364
Boys' Central	431	431
Girls' Central	415	281
North Ward	544	485
South Park	315	305
George Jay	423	390
Victoria West	301	279
Sir James Douglas	387	363
Bank Street	175	140
Kingston Street	279	237
Spring Ridge	165	149
Hillside	137	127
Rock Bay	103	86
Fernwood	109	91
Flagstaff	41	37
	3779	2885
Estimate, Boys' Central	431	
Total	4210

Russell "30" Model "R" 1913 Torpedo Model	\$2600
Russell "30" Model "R" 1913 Torpedo Roadster Model	\$2550

Prices F.O.B. Factory

There will be a big demand for this car. We are prepared to accept orders for it now, thereby insuring late Fall or early Spring delivery.

The 1913 Russell "30" surpasses in grace and elegance all previous models. Its many improvements, both in design and construction, enhance its outward beauty, provide greater riding comfort, give smoother running power and add to the simplicity of its control.

You will be charmed with this model; it is so essentially a Canadian's Car. There is about it a combination of dignity and power, plus that "something" which immediately denotes the owner's refinement and good taste. As a town car, it is incomparably luxurious. For hard touring service its strength is immense.

Briefly, the New Features Are

1. Absence of all working parts on the body, allowing unbroken graceful lines to sweep the whole length of the car.
2. New self starter; electrically operated. Turn the switch and your car is ready to go.
3. Electric lighting by current generated in car's own dynamo. Press a button and you "light up."
4. 3-in. wheels and 4-in. tires, a combination to absorb all shock and cause less wear on tires.
5. Demountable rims so that road repairs may be avoided.
6. A spare rim with each car.
7. Motor driven air pump driven by the car's own power.
8. Electrically lighted speedometer and clock in each car.

The Torpedo is delightfully roomy, and is upholstered in fine leather over our 11-inch padding. The complete top includes a dust shield device for the rear seat.

\$325 worth of extra equipment and labor has been built into the 1913 Russell "30" as compared with the 1912 model.

Send us your card for an advance descriptive pamphlet.

BIG SHIPMENT OF SALMON.

Cordova, Alaska, Oct. 4.—With a cargo of 55,000 cases of canned salmon, the pack of the Orca cannery, the ship

Charles E. Moody, of the Northwestern Fisheries Company, cleared from Cordova yesterday. The season just closed has been the biggest in the history of the Orca cannery.

Our automobiles will take those interested to the property at any time during the day.

VIEW ROYAL

We have too much to say to put it all in the small compass of a one page ad. Hear and see for yourselves.

Sir Donald Mann, Vice-President of the C.N.R., has promised an early announcement regarding the establishment of that road's terminals. It is to be made through Sir Richard McBride, British Columbia's Premier, any day. We make no promises, but we badly miss our guess if this does not advance Esquimalt Harbor property values 30 per cent. That, however, doesn't affect our interest in View Royal, our choice Esquimalt Waterfront Subdivision. We have fixed our prices. They make Seafront Quarter Acres—Charming Homesites—Within Everyone's Reach. There is no abatement in the demand for this property. More enquiries are received every day. Over Fifty went in the first three days and the prospects are that the remainder will be snatched up in very short order.

Capsuled Facts

"VIEW ROYAL" HAS A ROYAL VIEW.

ESQUIMALT, THE HARBOR, THE STRAITS AND THE OLYMPICS MAKE A GLORIOUS PANORAMA.

OUR PROPERTY INCLUDES THE "CREAM" OF ESQUIMALT HARBOR WATERFRONT. IT IS WELL PROTECTED FROM THE PREVAILING WINDS.

EVERY LOT IS APPROXIMATELY A QUARTER OF AN ACRE. ALL HAVE A COMMANDING OUTLOOK OVER THE CHARMING SURROUNDINGS.

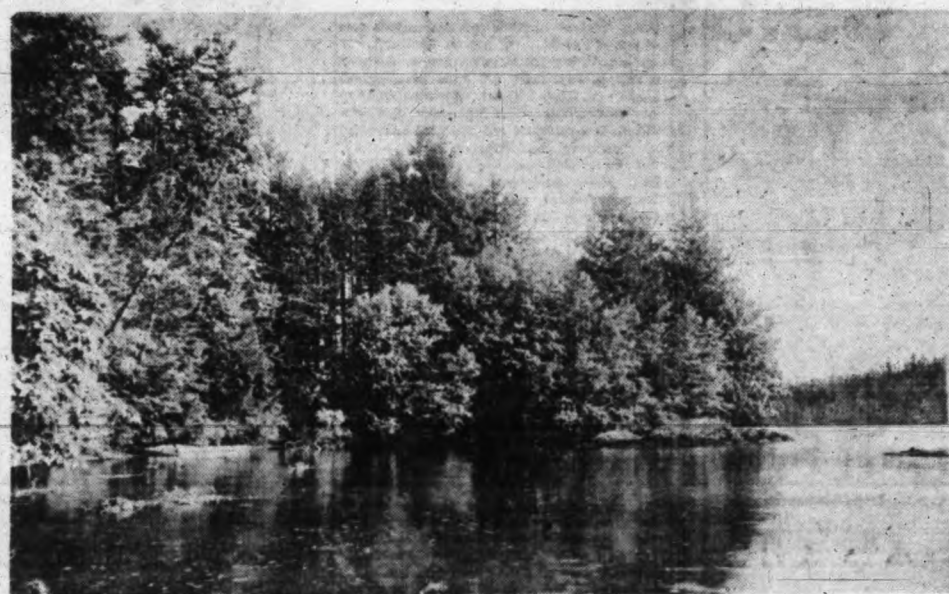

DOUGLAS FIR, AND THE OTHER SPECIES OF SHADE TREES COMMON TO VANCOUVER ISLAND, ARE FOUND ON MOST OF THE PROPERTIES.

WATER IS BEING PIPED ALONG ALL SUBDIVISION STREETS BY THE ESQUIMALT WATER WORKS COMPANY.

THOROUGHFARES ARE BEING GRADED WITH THE LEAST POSSIBLE DELAY.

ASSURANCE HAS BEEN GIVEN THAT PROBABLY WITHIN A SEASON "VIEW ROYAL" HOMES WILL BE SUPPLIED WITH ELECTRIC LIGHT.

AS A HOMESITE THE PROPERTY OFFERS EVERY INDUCEMENT. BUT, AS A PURE INVESTMENT ALSO, IT IS EXCEPTIONALLY GOOD. THE ACTIVITY OF THE C. P. R., THE C. N. R. AT ESQUIMALT, AND THE HARBOR'S EXTRAORDINARY FACILITIES FOR HANDLING MERCANTILE TRAFFIC, MAKES IT IMPOSSIBLE TO PRETEND A FORECAST OF THE PROPERTY'S FUTURE.

Showing a portion of the inside property of the View Royal subdivision. It would be hard to find finer land by the sea than is shown here.

This is a striking view of our waterfront property. Standing here, one looks straight through the entrance to Esquimalt Harbor.

Seashore Scenery Sunshine

ALL OF THESE NATURE HAS GENEROUSLY BESTOWED UPON VIEW ROYAL. IT HAS EIGHTY WELL-TREED, PARK-APPEARING ACRES. THEY RISE GENTLY FROM THE NORTH SHORE OF ESQUIMALT HARBOR. THE COAST HAS PEBBLE AND SHELL BEACHES, SMALL AND LARGE BAYS. EXPERTS HAVE LAID OUT THE SUBDIVISION ARTISTICALLY. WHEN THE STREETS ARE GRADED—A WORK WHICH IS BEING HURRIED—EACH OF THE QUARTER-ACRE LOTS WILL BE GARDENS SET IN A PARK COMMUNITY. EACH HOME WILL HAVE A CLEAR VIEW OF THE HARBOR, THE STRAITS AND THE GLORIOUS SNOW-CAPPED OLYMPICS.

WHO COULD PICTURE A MORE IDEAL SUMMER HOMESITE?

THINK! SAILING, FISHING, BATHING AND ALL OTHER SUMMER PASTIMES AT YOUR COMMAND.

ESQUIMALT WATER, PIPED ALONG THE STREETS; THE ASSURANCE OF ELECTRIC LIGHT PROBABLY WITHIN A SEASON; THE SITUATION ONLY FOUR MILES FROM THE CITY'S CENTRE; E. & N. AND C. N. R. TRAINS NEAR BY; STREET CARS WITHIN TWENTY MINUTES BY LAUNCH—IS IT ANY WONDER THAT THE SALE HAS BEEN RAPID? CAN YOU AFFORD TO LOOSE THE CHANCE?

Tracks on Songhees.—H. B. Beasley, general superintendent of the E. & N. Railway, stated this morning that the temporary tracks which have for some time been laid on the Songhees reserve were used for the first time yesterday. They will be in service as a sort of overflow for city delivery, and the unloading of coal, lumber and wood is being carried on there in large quantities.

A Simple Treatment That Will Make Hair Grow Now Sold in Canada

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA, the Great American Sage Hair Tonic.

Every reader of the Times can have an attractive head of hair in a few weeks by using SALVIA.

All first-class druggists sell a large bottle for 50 cents, and guarantee it to banish dandruff, stop falling hair and itching scalp in ten days, or money back.

SALVIA is a beautiful, pleasant, non-sticky Hair Tonic.

Sold at Campbell's Drug Store.

THIRD REPORT ON SOOKE SHORTLY

MR. MEREDITH RETURNS TO REPORT THIS MONTH

Forty-Five Per Cent. of Contract Called for by Specifications

Consulting Engineer Wynn Meredith will return to the city to-morrow week to prepare his third report on the Sooke waterworks contract. The date for the nine months expiring is October 16, and the specifications require that 45 per cent of the contract price shall have been completed by that time. This represents over half a million dollars' worth of work. In addition to work at Humpback and grading along the right-of-way, the low area around Sooke lake is rapidly advancing, although a great deal of bush has yet to be removed from the lower levels. The road diversion is completed, and has been taken over by the provincial government.

The water commissioner is also able to show material advance with the expropriations in the last three months. The land required at Humpback for the reservoir site is almost all purchased now. The Payne arbitration will be taken up on Wednesday, and there will not be much more to clear up. The Healey property, which is now the subject of an appeal, is the only case outstanding at Sooke Lake, so that the expropriations are now mainly confined to right-of-way, the cost of which is proving an expensive item.

In connection with Mr. Meredith's approaching return will come up again the question of the interpretation to be put on Mr. Elliott's remarks over the concrete pipe contract with the Reinforced Concrete Pipe Company, of Jackson, Mich., which the Westholme Company negotiated early in August. Mr. Elliott will be asked to meet the council when Mr. Meredith is here to discuss the situation. The joint letter from the water commissioner and engineer sent to the city council recently asked for an inquiry on oath, which the council deferred till Mr. Elliott had been heard from, and when the letter came in they felt a personal interview would clear the air. This conference has been postponed till Mr. Meredith's return.

We can save you \$5 to \$10 on your Overcoat at the Merchants' Sales Company's Store, corner Government and Pandora Streets.

RUDOLPH GANZ AND HIS ART

INTERVIEW WITH THE GREAT SWISS PIANIST

Is a Modern in His Musical Tastes and Likes an Argument

When the Flonzeley String Quartet were here last May Signor Botti told of the little colony of famous musicians the members of which lived within a short distance of each other on the shores of Lake Geneva, and in Rudolf Ganz, the eminent pianist who is to play this evening in the Victoria theatre there is another renowned artist from the same part of the world. "Bauer once made a map of all the district," said the big Swiss pianist last evening in an interview with the Times, "and when Josef Hoffman, Madame Schuyler, Paderewski, Ernest Schelling, Busoni and all the others were on the drawing, I, who lived but a twenty minutes' drive from Bauer's house was not shown." "You see," he concluded laughingly, "we are rivals at the piano."

One would not imagine, in talking with Mr. Ganz, that he would be a disagreeable rival. There would be great good nature beneath it all, and it would be full of the wholesome energy which is so necessary to any competition, either artistic or advanced for material ends. "I am a modern, a modern in my musical tastes, a modern in my interpretation," said he. "What is more, I like to fight. I would rather talk to someone who disagrees with me about the subject of music, someone who believes that the old style is best, and that the composers of one hundred years ago were more advanced than our best modern composers. I would enjoy telling why I do not agree—except in the case of Bach, who two hundred years ago broke all the musical rules which it has taken hundreds of writers after him to break before we get so far as we are to-day. Bach has written just about all that there is to be written."

"As a modern," said Mr. Ganz, "I may say that I do not approve of the convention that demands in recitals that the pianist shall play without music. Up to a point it may be quite right, and makes one train the memory, but it is quite impossible for one to be a virtuoso and to be versatile in music when he is dependent entirely on his memory. As it is to-day we so often hear one man say, 'I play thirteen concertos,' and because someone else can say 'I play sixteen concertos,' that the last must be the greater man. As it is now one must memorize every little trifling bit of music in the orchestral accompaniment, and know by heart all the little runs to be made by the piccolo and the cornet and the stringed instruments, when, if they were permitted to but have the music before them they might enjoy the music. This is not a universal convention, and is peculiar to Germany, England, and America more particularly. In France it is different, and even the great Saint Saens plays his own concertos with notes in front of him. Music to-day is too complex to expect the pianist to know all the parts of the concerto. We are passing from the polyphonic idea of the past few years, the placing together of many melodies—and have now developed the polyharmonic scheme of composition where two, three and sometimes even four harmonies are brought together. Busoni's Berceuse Elegiac has four distinct harmonic melodies. Of course one could not retire from the musical world for fifty years and expect to like the change all at once, as there is a great deal in educating the ear to pick out the different sounds, but in dramatic realism music is far in advance of what it has ever been in the past."

Referring to the wonderful boy composer, Korngold, Mr. Ganz had only the most unqualified praise. This boy, a son of one of the greatest of the musical critics of Vienna, wrote a concerto at the age of thirteen which compares with the compositions of Richard Strauss, whom there is little doubt that the boy has been influenced by. "Korngold is of Jewish family," said Mr. Ganz, "and the art and expression are all there; mature as is so often found in the children of that race. His works are being performed by all the biggest orchestras, and have already been accepted by the most critical audiences as among the finest of modern compositions. He has also composed two very beautiful piano sonatas, a trio, and a series of seven of Fairy Tales built up on the old German legends."

Mr. Ganz, although a Swiss, lived in Chicago for five years as head of the pianoforte school in connection with the musical college there, and speaks English very fluently. He is a great admirer of the Americans, although musically he thinks that the German composers have the greater depth of feeling which is so essential to really great work. This is his fourth visit to America, and his first journey through the Canadian Rockies was taken last week—a trip which he considers one of the most inspiring he has ever taken.

"Yes," he concluded in answer to a question, "audiences have a great effect on the artist. I once heard of an unfortunate player who, when he arrived at the theatre found only one man in the place, and he sitting up in the gallery. However, he made his bow, and said that despite the smallness of his audience he would proceed with his programme as arranged. 'Then I hope you won't be long,' sung out a voice from the gallery, 'for I'm the janitor and I've got to wait till you're finished before I can go home.'"

Mr. Ganz is not accompanied on his present trip by his wife. His home is in Berlin for a great part of every year, a city which, despite its reputation as one of the great musical centres of Europe, he finds conservative in its tastes and traditional in its musical inclinations.

Lowney's shows you how Cocoa ought to taste

Partly because—the cocoa beans used for Lowney's are selected from the very finest beans to be found in the tropics. These beans command high prices. We pay them.

Lowney's shows you how Cocoa ought to taste

Partly because—the beans, after thorough cleaning, are carefully roasted to bring out the full, rich flavor of the finest cocoa beans. The process demands rare skill and experience.

Lowney's shows you how Cocoa ought to taste

Partly because—cocoa beans from various tropical sections are combined and ground into an exquisite blend.

Lowney's shows you how Cocoa ought to taste

Partly because—after excess cocoa butter is removed, the cocoa powder is reground and sifted through silk. This insures a fine powder that gives up its rich flavor more quickly than would be possible with a coarser powder.

Lowney's shows you how Cocoa ought to taste

Because—it is impossible to get finer flavored beans than you will find in Lowney's. Because it is impossible to blend, roast and grind these beans with more experienced skill or greater care than we use at our factory in Montreal.

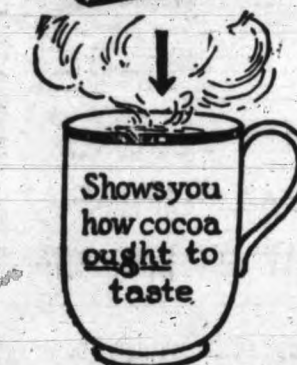

Lowney's Cocoa gives you the very best flavor that the finest cocoa beans can yield. It simply shows you how cocoa ought to taste.

Sold by grocers. In tins—10c to 50c sizes.

LOWNEY'S COCOA

The Best Way to Make Cocoa
Mix two even tablespoonfuls of cocoa with two of sugar. Add ¼ tablespoonful of salt. Mix gradually with two cups of boiling water. Stir to a smooth paste. Boil 5 minutes. Add two cups of scalded (not boiled) milk, and beat with an egg-beater until frothy.

STOMACH STARVERS EAT ANYTHING NOW

No Indigestion or Upset Stomach for "Pape's Diaphepsin" Users

Every year regularly more than a
million stomach sufferers in the United
States, England and Canada take
Pape's Diaphepsin, and realize not only
immediate, but lasting relief.

This harmless preparation will di-
gest anything you eat and overcome a
sour, gassy or out-of-order stomach
five minutes afterwards.

If your meals don't fit comfortably,
or what you eat lies like a lump of lead
in your stomach, or if you have heart-
burn, that is a sign of indigestion.

Get from your pharmacist a "fifty-
cent case of Pape's Diaphepsin and take
a dose just as soon as you can. There
will be no sour risings, no belching of
undigested food mixed with acid, no
stomach gas or heartburn, fullness or
heavy feeling in the stomach, nausea,
debilitating headaches, dizziness or
intestinal griping. This will all go,
and, besides, there will be no sour food
left over in the stomach to poison your
breath with nauseous odors.

Pape's Diaphepsin is a certain cure
for out-of-order stomachs, because it
takes hold of your food and digests it
just the same as if your stomach
wasn't there.

Relief in five minutes from all
stomach misery is waiting for you at
any drug store.

These large fifty-cent cases contain
more than sufficient to thoroughly
cure almost any case of dyspepsia, in-
dignation or any other stomach dis-
order.

RICCARDO MARTIN TO SING TO-NIGHT CELEBRATED TENOR AND HIS SUCCESSES

Gives Some Useful Advice for
Would-Be Operatic
Stars

The first of the concerts to be given
under the auspices of the Ladies' Musi-
cal Society will take place this evening
in the Victoria theatre, and yesterday
afternoon the two artists, Riccardo
Martin and Rudolph Ganz, who, by the
by, played last year at Bloomington,
Illinois, for the first time together, ar-
rived at the Empress hotel. The com-
bination of artists on that occasion
proved so congenial both to themselves
and to their audiences, that their
manager, Wagner, of New York, said
that he would try to arrange a tour
for them. Their visit to Victoria was
accomplished after an only too hurried
trip across the prairies and through
the Rocky Mountains, and Mr. Martin,
seen last evening at the Empress hotel,
expressed the hope that some day he
would be rich enough and independent
enough of managers and audiences to
be able to take the trip in a leisurely
fashion so that he might spend as long
as he wished in the favorite places
through which he passed.

"Your Lake Louise is beautiful," said
this reputed Kentucky tenor with the
slightly foreign pronunciation and un-
American appearance, "and the Rock-
ies there are far more beautiful than
the Swiss Alps, which now are all too
overrun with guides, tourists, alpin-
ists, stockmen and other evidences of
civilization. Here you have the grand-
est wilderness of scenery within view of

home to study composition, the ideal
becoming a vocalist never seeming to
project itself until after he was twenty
years of age. There is no regret attach-
ed to this deferred decision, however,
as he feels that all the years he spent
in the study of instrumental music and
composition have been of vast assist-
ance to him in his art as a singer. Be-
sides which," he explained, "I shall
some day be too old to sing, when I
shall once more take up composing as
I originally intended."

Mr. Martin has studied in nearly all
the big cities of the continent at one
time or another, and was one of the
first American tenors who appeared be-
fore European audiences. "I was cer-
tainly the first American tenor who
ever sang at Milan, or for that matter
at the Metropolitan opera house in
New York. There is an intense prej-
udice in Italy against foreigners of any
sort, and one has to prove himself be-
fore he can get any sort of reception
from an Italian audience. No one had
ever blazed the trail in Europe before,
and at Milan I felt that I was being
very severely criticized from the be-
ginning, my first appearance being in
Giordano's 'Andrea Chenier.' However,
I have very pleasant memories of
Milan after this was over, so they must
have been favorably impressed."

"My favorite roles?" said Mr. Martin
repeating the question, "Radames in
'Aida' is almost without hesitation my
favorite part; then I like very much
all the Puccini operas, 'Carman,' and
the role of Rodolfo in 'La Boheme.' It
is wonderful what effect one's audience
has on one's singing. If they like a cer-
tain opera it helps the singer im-
mensely, quite apart from the singing
itself. Personally I am very sensitive
to the attitude of my audience, and
feel at once just what impression I
make. Half of a musician's power lies
in his personality and in personal mag-
netism."

"I would give one word of advice to
young singers," said the popular tenor
when questioned as to his belief in his
art as a career. "Don't—unless there is
talent in overwhelming quantities—
don't aim at a musical career! The
world is full of mediocrities, but the
people who can make their way could
be counted on the fingers of the two
hands. More than that, to be a great
vocalist one should be familiar with

RICCARDO MARTIN, TENOR, WHO SINGS TO-NIGHT

the train—so unclaimed and so silent
that one little expects to find so near
such a magnificent hotel as this. There
are few hotels in London or Paris
which can come up to this."

"I have been in the northwest three
times before," said the singer, in reply
to the inevitable questions, "although
this is the first time that I have ever
visited Victoria or the Canadian Pa-
cific Coast. Many years ago—it must be
ten—I visited Edmonton, and often
since coming through the prairies last
week have I wished that I had bought
some land there. I would perhaps not
require to sing at all by now," adding
as an afterthought, "although in the
meantime I have done much better
by selling land."

Just at this moment the Empress or-
chestra commenced the overture to
'Madame Butterfly,' and Mr. Martin's
expression became somewhat more
watchful for a moment, his transient
uneasiness being explained by him as
due to his frequent singing of the role
of Pinkerton in this beautiful Puccini
opera. "I feel when I hear the over-
ture commence," he said, "that I will
get my cue in a moment to go out on
the stage, and as soon as the music
starts I begin to become Pinkerton in
my feelings. I have been singularly
fortunate in the last seven years during
which I have been singing, in having
only missed four performances alto-
gether, two at the Metropolitan opera
house owing to operation, one perform-
ance through having a bad cold, and
one other through having tonsillitis.
But I am very superstitious," said Mr.
Martin suddenly, realizing what he had
said and looking about for something
wooden to touch to ward off any evil.
Mr. Martin's career has been rather
surprising, in that he originally left

counterpoint, composition and the
piano—particularly the last. And, in
conclusion, "being a good singer as a
boy does not mean that one may sing
as a man. Blanchard Kavanaugh, one
of the greatest boy singers who lived
in modern times, cannot sing a note to-
day."

WORK GOING AHEAD.

Progress on New Saanich Carline and
Jordan River Dam Very
Satisfactory.

Mr. Tripp, who is acting as A. T.
Goward's deputy during the latter's
absence, reported this morning that the
work on the new Saanich carline was
going on very rapidly. Already about
a mile and a half of track has been laid
from the city hall, while altogether
about four miles of poles for trolleys
have been set up. Another of the big
projects being undertaken by the com-
pany, which is also going ahead very
well, is the great dam at Jordan river,
which is reckoned to be the largest in
Canada. About two hundred and fifty
men are working on this project.

Mr. Tripp said that it was a source
of great gratification to the company
to be able to report that throughout
the whole of the view-regal visit, and all
the extra traffic entailed, and work im-
posed, there has not been a single
casualty either of passengers or com-
pany men, and everything had passed
off smoothly and well.

Board of Trade.—The council of the
Board of Trade will hold their next
session on Tuesday next in the board
room on Bastion street.

FALL SPORTS USHERED IN.

With the opening of the soccer schedules and the commencement of the Rugby games, it may be said that the fall sporting season is on in earnest. The Victoria and District Soccer League begins its schedule to-morrow, while the City League Rugby clubs have registered 185 players. The latter clubs are all looking forward to the Bannard Cup, but first and foremost they have in sight the Cooper-Kelch and McKeechie Cups, emblematic of the Coast and British Columbia championships.

On Sunday, the professional soccer clubs get under way at Nanaimo, and from now until hockey, the football stars will occupy the calcium.

AUSTRALIANS ARRIVE.

Royally Welcomed at San Francisco—Will Play Locals in December.

San Francisco, Cal., Oct. 4.—Bearing the Australian Rugby team of twenty members, the steamship Moana docked here yesterday afternoon.

On their arrival the visitors became the guests of the Olympic Club and were officially welcomed to California to-night at a club smoker given under the auspices of the British residents of the city. To-morrow they will practice in the stadium at Golden Gate Park, and on Saturday they will play the Barbarians, a formidable team of British players residing here. Later they will meet the Olympic Club fifteen and the Varsity teams of the University of California and Stanford.

The Australians will make their appearance in Victoria some time in December.

JACK TAIT

Local wrestler, who will figure in the J. B. A. A. bouts at the Victoria Theatre on Monday night.

AUSTRALIAN RUGBY PLAYERS WELCOMED

Delegation, Headed by Mayor Ralph, Greets Visitors at San Francisco

San Francisco, Cal., Oct. 4.—The twenty-four members of the Australian Rugby football squad, which arrived yesterday for a month's play with California college football teams, were entertained here last night by the British residents of San Francisco, and will begin practice to-day for their coming match. Their first game is scheduled for Saturday, when they will play the Barbarians, a San Francisco club.

Mayor Ralph was the first to greet the invaders when the gangplank was dropped, after the long voyage from Australia. A large delegation of British residents, representatives of universities, colleges, athletic clubs and former Australians surrounded the visitors and assured them of the freedom of the city. The Stanford University band was in attendance, and the athletes were taken for a tour of the city in sight-seeing automobiles.

The visitors knew not a single detail of the schedule of the games arranged for them, as they left the matter entirely in the hands of the California Rugby Union, which financed the trip. But after their schedule had been outlined they expressed their entire satisfaction. Thirteen games have been scheduled with teams in this section. November 17, the Australians will depart for Vancouver, B. C.

Dr. Borshmann is manager of the squad, which includes the following: Ward Prentice (captain), Thomas J. Richards (vice-captain), W. G. Tasker, A. Walker, W. T. Watson, L. Melbush, L. Dwyer, W. Murphy, E. Fahey, J. Wyle, A. R. Dunbar, R. W. Adamson, P. Cunningham, Jim Clarke, M. F. Fraser, L. W. Wogam, R. B. Hill, G. Pugh, A. Kent, H. Jones, J. F. Flynn, T. S. Griffin, D. B. Carroll and H. George.

Fast, snappy playing is expected of the visitors, none of whom apparently weighs more than 185 pounds.

GOOD TURNOUT MARKS INITIAL PRACTICE

Canadian Rugby Club Looks an Assured Success—Coach Small—Very Optimistic

Coach Walter Small was particularly delighted with the showing of the candidates at last night's practice of the Canadian Rugby Club, at Beacon Hill. Fourteen players were out and from all appearances the game will be a popular pastime in Victoria before many weeks have elapsed. The intentions of the officers of the club are to play home and home matches with Vancouver, this season, and if possible, a regular schedule of games will be drawn up.

Many Eastern Canada Rugby players have sent in their names and joined the club, while a number of American players are also throwing in their lot with the Canadian Rugby players. Another practice will be held Saturday afternoon, when a full turnout is requested.

FAVOR GOTHAM FANS.

No Mail Applications Were Considered—Boston Prices Booming.

New York, Oct. 4.—New York baseball fans will monopolize practically all the seats at the Polo Grounds during the world's series. Theatre ticket men admit that the method of distribution is likely to prove a hard blow to the speculators. When the sale of unreserved seats begins on Tuesday morning the police will draw a dead line, which will make it impossible for such speculators to get near the ticket windows.

Prices Rising.

Boston, Oct. 4.—With the first world's series games here only five days away the quotations on single chances to see the initial struggle in Fenway Park rose to-day to \$7 bid and \$12 asked. Betting on the series has not been brisk here.

SIDNEY ROAD RACE.

A ten-mile modified Marathon race is to be held at Sidney on October 19. Many valuable prizes have been donated, and the latter will be placed on view in the window of Shortt, Hill & Duncan, on Broad street, in a few days. R. Tester, secretary-treasurer of the Sidney Athletic Association, is handling the race, and he will accept entries or give any information required.

The Weather.—To-day saw a remarkable drop in the temperature for the minimum thermometer recorded this morning 29 degrees, which is the lowest registered for some time. About 10 o'clock this morning a few flakes of snow fell, showing that the upper air is even cooler than the lower. Conditions point to a continuance of fair weather on this part of the coast, though to the south rain has fallen in large quantities, no less than three-quarters of an inch being recorded at Seattle yesterday. On the prairies a spell of fair and fairly warm weather seems to have set in, and with the exception of slight showers at Kootenay, conditions have been favorable for the last twenty-four hours over the whole of the northern part of the continent. What little precipitation there has been was all experienced in Western Alberta.

Fifty Per Cent Advance in Prices

This is considered a very conservative estimate of the rise in values absolutely assured in

When the Mt. Douglas car line is completed. This sharp advance will follow right on the heels of the work of construction already well under way.

According to the best authority, this new park line will be completed by June of 1913. This line will pass right through Irvine Place, following the Shelbourne street extension which intersects this property, and liberal provision for which has been made in the plan of subdivision. With this adequate means of transportation, right to the heart of the city in a few minutes, Irvine Place will be one of the most desirable sections of Victoria.

The demand for Irvine Place lots is stronger every day. Yesterday was exceptional. Our motors were kept busy at all hours, and we assure you that virtually every person who saw the section was so favorably impressed with the general layout and the assured prospects that he bought at sight.

The purchase of an Irvine Place lot to-day is an absolutely gilt-edged investment. You stand to make at least fifty per cent. on the full purchase price within the next few months, and long before you will be required to meet half the payments on your selection. In considering this proposition, keep these facts in mind—

Every lot in Irvine Place is a quarter-acre, facing on well paved streets, led up to by two main thoroughfares—Cedar Hill Road and Gordon Head Road.

Prices in Irvine Place are proportionately less than what is being asked for unimproved acreage on Cedar Hill road.

Irvine Place lots are cleared and level. The soil is a deep, black loam, ideal for gardening.

Building materials are close at hand and transportation is first-class.

Fresh water is plentiful throughout the whole subdivision. Three fine houses are in course of erection on the property. Just a short distance from school, store and post office.

TIME FOR PURCHASE AT THE ORIGINAL PRICES IS SHORT. IN ALL PROBABILITY, ANOTHER WEEK WILL SEE A MAJORITY OF THE LOTS SOLD. LET US TAKE YOU OUT TO IRVINE PLACE TO-DAY. THE PROPERTY IS GOOD ENOUGH TO SELL ITSELF.

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

Many doubts and anxieties will assail you, but you will be helped to success by appreciative friends. Some proposition will be made to you which you should seriously consider. These born, to-day will possess strong minds and good judgment, and in spite of erratic conduct will gain many good and influential friends, who will help them find their proper environment.

Birthday
Congratulations
TO

Angers, Hon. Auguste Real, L.L.D., K.C., P.C. (Montreal); born, Quebec, 1838; Conservative M.P., 1874-1879; Solicitor-General and Attorney-General; Conservative M.P., 1880; Judge of Superior Court, 1880-1888; Lieutenant-Governor of Quebec, 1892-1896, during which time he dismissed the Mercer administration from office; called to the Senate, 1896, and Minister of Agriculture in the Bowell cabinet and President of the Council in the Tupper ministry; resigned from the Senate in 1906 to contest a seat for the Commons, but defeated.

Arthur, James, M.P. (Powassan, Ont.); born, Toronto, 1866; Conservative M.P. for Parry Sound since 1908.

Dandurand, Ucal H. (Montreal); born, Montreal, 1866; real estate broker and prominent politician.

Gagnier, Lieut.-Col. Legitim Antoine, M.D. (Montreal); born, Ste. Martine, Que., 1871; one of the founders of the cadet movement in Quebec province.

Holden, James Bismarck, M.P.P. (Vegreville, Alberta); born, Singhampton, Simcoe, Ont., 1876; Liberal M.P.P. for Vegreville since 1908.

Knox, Miss Ellen Mary (Toronto); born, Waddon, Surrey, Eng., 1858; principal of Haverall Ladies' College.

Lafortune, David Arthur, K.C., B.A., M.P. (St. Laurent, Que.); born, St. Eustache, 1848; Crown prosecutor in Montreal for many years; Liberal M.P. for Montcalm since 1909.

Morison, Rev. David W., B.A., D.D. (Ormatown, Que.); born, Denny, Strathgairn, Scotland, 1841; Presbyterian pastor at Ormatown since 1873.

Ross, Crawford (Ottawa); born, Gould, Compton, Que., 1856; president of the C. Ross Company of Ottawa and a prominent supporter of amateur athletics.

Thorneloe, Rt. Rev. George, M.A., D.D., D.C.L. (Sault Ste. Marie, Ont.); born, Coventry, Eng., 1848; rector of Stanstead, Que., 1874-1885; rector of Sherbrooke, 1885-1897, when elected Bishop of Algoma.

Warburton, C. George A. (Toronto); born, Sandford, Eng., 1859; active in railway Y.M.C.A. work.

IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

A gentleman has no nationality. He is the same in all countries, English, German, French, Chinese, all impress you alike, if they be gentlemen.

The order of gentlemen is the one true international society. They are brothers everywhere. They have their subtle grifts, signs and shibboleths, that the uninitiated can never master.

Gentlemen are not bred, they are born. One is as likely to step out of the coal-miner's hut as out of the duke's mansion.

Hence gentlemen are the social ligatures that keep humanity from separating in layers. It has never been

NOTICE TO CORRESPONDENTS

Letters for publication in Daily Times
must be received before 10 a. m. When
received after that hour they will go over
until next day.

While unobjectionable anonymous com-
munications will be published, the name
and address of every writer of such letters
must be given to the editor.

THE ROYAL VISIT.

To the Editor:—Now that Their
Royal Highnesses have terminated
their visit to Victoria it may not be
out of place to point out a few things
in connection with their visit which
were not strictly as they should have
been and did not do justice to the
amount of intelligence about such pro-
ceedings as reception and the like
which should be in possession of all
well-informed persons. I witnessed
nearly everything of a public nature
which took place from the landing of
the Royal party to their departure,
and as one who has been familiar
with similar occasions in the Old
Country for a good many years from
the reign of Queen Victoria down to
the present day, I was not proud of
the way things were done in Victoria.
To begin with the procession from
the wharf to the place of reception in

front of the parliament buildings was
more like a funeral cortege than like
a Royal celebration. Instead of being
greeted with rousing cheers Their
Royal Highnesses were greeted with a
hoarse apology for such spontaneous
cheering of which the people of the
city are capable, and of which they
have given frequent evidence when
people of much lesser calibre were re-
ceived.

The reception itself was bungled
from beginning to end. The first step
the Duke took to ascend the dias the
carpet slipped and nearly occasioned
His Royal Highness a nasty fall.
Surely there must be nails or tacks
enough somewhere in the city to se-
cure a carpet for the royal feet, even
if no more ornate decorations were
available. No one seemed to know in
advance where to place the seats for
Their Royal Highnesses the Duchess
and Princess Patricia until after their
arrival, when the seats had to be
moved clear across the dias in order
to properly grace the occasion. Nor
did the Mayor seem to know when
it was quite the proper moment for
him to step forward and present the
civic address. The delay must have
been embarrassing to the Duke, who
naturally would expect eclat and
promptitude in such procedure.

These little malaprops are, however,
trifling in comparison with the rusty
livery and really unkempt garments
of the rigout in general for the con-
veyance of T.R.H. on a Royal proce-
sion through the streets of the city.
For a city like Victoria those in charge
of the event might have properly out-

fitted four postilion boys, or if this
was impossible the men who drove
the carriages conveying the Royal
party might have been fitted out with
new hats and supplied with cockades;
a privilege accorded the conveyors of
Royalty in every other British coun-
try.

The expense of such paraphernalia
as is proper to such occasion is not
borne by any single individual. It is
a state charge and no poverty of re-
course can be pleaded as an excuse.

What is the use of having the favor
of the gods in charming weather, in
the beauty of the city and the ex-
tremely privileged event, an event un-
likely to happen frequently in the lives
of those who witnessed this affair, un-
less the procedure can be made de-
rigueur and everything be carried off in
a manner which will impress those
who know from experience how these
things should be done with the fact
that Victoria knows what is proper?

If I were alone in this criticism it
might not be regarded as of so much
consequence, but I am only one of
many who are humiliated that no bet-
ter showing of etiquette was exhibited
on the rare occasion.

STOCK MARKET

OPENS HIGHER

Trading Becomes Dull Before Close—Traders Inclined to Accept Moderate Profits

(Courtesy F. W. Stevenson & Co.)
New York, Oct. 4.—Foreign markets were somewhat steadier owing to more satisfactory reports relative to the status of affairs in the Balkans. The above was reflected early by a little strength in American issues in London by a higher range of prices at New York opening, which was lost near the close, and trading, except in a few specialties, became relatively dull. Call money was 4 1/2 to 5 per cent. and it is thought that the same is likely to remain easy for a short period, though a further hardening is anticipated as the end of the month approaches.

Traders maintain there is still sufficient warrant for taking a conservative attitude during the next few weeks and therefore accept moderate profits on long stocks on the upturn and confine purchases to occasional reactions of from 1 to 2 points.

TRADING ON THE

LOCAL EXCHANGE

Royal Collieries in Demand—Granby Smelter Shares Remain Firm

(Courtesy F. W. Stevenson & Co.)
Victoria, Oct. 4.—Trading on the local stock exchange was moderate this morning, twenty shares of Canadian Marconi selling at 45 per share, and two one thousand lots of Royal Collieries at .04c. Recent movement of the latter issue would suggest a firmer and higher market.

Granby remained firm at yesterday's figures, and later in the day sold as high as 53.75 in Boston, which is the leading market for the stock.

Chicago Market Continues Firm—Situation Discourages Short Selling

(Courtesy F. W. Stevenson & Co.)
Chicago, Oct. 4.—Markets were there was no news of importance of wheat for the whole day, surrounding conditions are considered in every way bearish, and prices have been expected to depreciate materially. Nevertheless, the market has remained firm, and to-day had every appearance of inherent strength. The close was around the high. Shipping sales are unimportant, milling demand only moderate, and anticipated movement heavy. The bull factor to be considered is the present low level of prices which encourages investment and discourages short selling. Corn and oats had much the same action for the day, with the short interest covering actively, but also good buying, being in evidence. There is little talk by an advance that railways will not move large quantities of corn in time for December contracts, and this applies largely to oats.

WINNIPEG GRAIN.
Winnipeg, Oct. 4.—The market was very strong and active this morning, due to developments of an unfavorable nature in eastern Europe. Sharp advances were in order here. There is a brisk demand and best trade in cash wheat and export inquiry is becoming more urgent. Weather conditions continue eminently favorable.

This is a Want Ad Town

And There are a Lot of Important Things That Cannot,
Nowadays, Be Accomplished at All Without the
Help of the Want Ads!

For example, your chances to sell, or to lease, property, AT THE RIGHT PRICE, to the right people, ARE MULTIPLIED BY A HUNDRED through an adequate campaign of classified advertising. If the matter is left to an agent, or broker, he must advertise your proposition aggressively—for the simple reason that 99 out of a hundred people who buy or rent property first read and consider and investigate the ads. The habit is one of simple prudence, of business sense, with them. The unadvertised property never comes to their notice at all!

So it is in the tasks of finding efficient help—of securing boarders or tenants for furnished rooms—of finding desirable positions. In these tasks and quests the want ads are the natural service-givers. They introduce people who have business to transact with each other. Every hour of every day such people, who might never meet otherwise, are brought together, with mutual profit!

Truly, this IS a want ad town! Are YOU a want advertiser?

POST-SEASON GAMES ARE ABANDONED

Seattle, Wash., Oct. 4.—The post-season series between the Seattle and Spokane teams has been called off. Most of the Seattle players left for different parts last night and Manager Raymond to-day notified the Spokane boys that it was all off as far as the post-season series was concerned, but he would try and pick up a team that could play Spokane Saturday and Sunday.

OBITUARY RECORD

The funeral of little Marion Tourigny, the four-year-old daughter of Mr. and Mrs. Tourigny of 325 Vancouver street, took place this morning at 9.30 from the family residence, and half an hour later from the Roman Catholic cathedral. Rev. Father Larterne officiating both here and at the graveside. Quite a number of the family friends were present, and numbers of floral tributes.

The funeral of the late Mrs. Rosina Abbott took place this afternoon at 2.30 from the chapel of the B. C. Funeral Company, Broughton street. Rev. Dr. Scott conducting the services.

The funeral of the late Henry Crane, Frank Turgoose, Sanction, a daughter.

Bungalow Snap

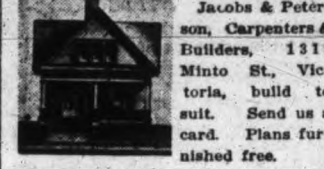

A five roomed bungalow, all modern, paneled walls, beamed ceiling in dining room, built in buffet, book cases, cabinet kitchen, two splendid bedrooms and bathroom, cement basement. Wide verandah extends full length and front and commands an unobstructed view of water and mountains. Lot 50x120, close to the beach and in a splendidly improved district.

Price \$4,850

On exceedingly easy terms. \$500 cash, balance over three years.

funeral will take place from here at 2.15 to-morrow afternoon, and fifteen minutes later from St. John's church.

The funeral of the late Timothy Fenton will take place to-morrow morning at 8.45 o'clock from the B. C. Funeral parlors and at 9 o'clock from the Roman Catholic cathedral.

LOCAL NEWS

Deaths During September.—There were 22 deaths in the city last month. Two required the attention of the coroner.

Overcoats! Overcoats! Overcoats! For men who appreciate the value of saving half the cost. Merchants Sales Company, corner Government and Pandora Streets.

Y. M. C. A. Board Meets.—The Y. M. C. A. board of directors met at 1 o'clock this afternoon when business and a luncheon were combined at the Blanchard street building. Ordinary routine business, the passing of bills, etc., was conducted and afterwards the resignation of Mr. Francis was accepted with regret. It was stated at the meeting that Mr. Sayre, the peripatetic secretary of the Y. M. C. A., would be here to-morrow to act as general secretary in the interim between the departure of Mr. Thompson, the retiring secretary, and the appointment of the new official.

Library Bulletin.—It is expected that the new library bulletin will be published either to-day or to-morrow. On account of the alterations going on at the Carnegie library, and the consequent work entailed upon the librarian and her assistants, no bulletin was issued last month, but the new book will feature the volumes introduced during both months and will consequently be a double-size announcement. The bulletins are, of course, gratis, and can be obtained by all registered members of the library. In addition of a month or five weeks a large addition of books is expected to be added to the shelves, including several hundreds of fictional works and as many non-fiction.

THE BALKAN SITUATION.

London, Oct. 4.—A more hopeful feeling prevailed to-day concerning the Balkan situation. Diplomacy, which is seeking for peace, made progress toward a solution of the crisis. News that the powers have reached a complete agreement and that the Balkan states had modified their demands, arrived simultaneously with further reports of fighting on the frontiers. Persistent rumors that Turkey and Italy had arranged peace are believed to have had some influence on the Serbian, Bulgarian, Montenegrin and Greek allies, who, it is asserted, will not be so anxious to tackle Turkey when she is free from the embarrassment of a war with a great power. The British Mediterranean fleet was ordered to-day to proceed to the Levant according to a news agency dispatch from Gibraltar. The cruiser Weymouth immediately left at full speed for Suda Bay on the north coast of Crete. Constantinople, Oct. 4.—Detachments of Bulgarian troops to-day penetrated Turkish territory north of Kov Chaz to the northeast of Adrianople.

SCOTCH SETTLERS
FOR THE ISLANDBENEDICTINE FATHER
DISCUSSES PLANS

Has Arranged for Home for
Orphan Girls Near Alberni
—Men From Highlands

A new project for bringing settlers from the north of Scotland to Vancouver Island has been taken in hand by Rev. Father Macdonell, of Port Augustus Abbey of the Benedictine Order in Scotland, who has been in the city for some little time in connection with the matter.

One of Father Macdonell's activities in the north of Scotland has been the establishing of a home for orphan girls. It is his idea that such a home should not have more than twenty or thirty inmates, so as to avoid placing on the children the institutional stamp which is apt to mark those brought up in this way. As more children have to be provided for, more homes should be built.

Farm Near Alberni.
Already one such home under Father Macdonell's charge is in running order in the north of Scotland. Only such girls are taken in as are physically sound and therefore capable of growing up into healthy, useful women. Two housekeepers have been provided and also two trained certificated teachers, whose certificates have recently been endorsed by the educational authorities of British Columbia. This home, housekeepers, teachers and children, he proposes to transfer to the neighborhood of Alberni where he is negotiating to acquire a farm of about eighty acres. The girls will there be taught housekeeping and poultry raising, dairying, fruit culture and generally speaking, whatever pertains to woman's work on the farm or in the house. They will thus be enabled to grow up capable and self-reliant.

"The idea," says Father Macdonell, "is to give the children a chance. We might train them in the old country, but when they grow up they would drift to the cities where conditions

are bad. After we get this first home established, others will follow in due course. Boys' homes of the same character will also be established as opportunity offers. The farm will not only give the requisite means for training the children but will also afford a while be largely self-supporting."

Father Macdonell gave the matter a good deal of consideration, before deciding upon Alberni as a location. Inducements were offered him to start on the prairie, but that part of the country did not appeal to him at all and he finally selected Vancouver Island as being in every way the most suitable.

Men From the Highlands.
Somewhat in the same connection, but not in practical form is Father Macdonell's plan for bringing out adults from the Highlands, of Scotland.

"A mill owner near Alberni told me the other day," says he, "that he could give steady employment to twenty men at once at \$2.50 a day. I am satisfied that regular work would be found by all who come, and after a little while when they had time to look around, they would go on the land."

There are also many fishermen in the north of Scotland, says Father Macdonell, who would be glad of a chance to follow their occupation in this new country. On this point he had a conversation the other day with Sir Donald Mann, who expressed himself as very favorable to any scheme to give these people small pieces of land which they could cultivate and at the same time follow their occupation as fishermen. Such an arrangement would help in no small degree to solve the problem of Oriental labor and may be taken up by Father Macdonell after he has got his orphan's homes at Alberni into running order.

FURTHER DETAILS OF
FATAL ACCIDENT

Surveyor P. C. Coates Tells of
the Circumstances Attending
Death of Cecil Sargent

P. C. Coates, the well-known Dominion and British Columbia land surveyor, who has just returned from the vicinity of Powell River, brings back more accurate information as to the unfortunate circumstances which resulted in the death of the late Cecil Sargent, whose untimely end was reported in the Times of September 25.

In conversation with a representative of the Times, Mr. Coates explained the circumstances attending the sad fatality very lucidly.

"I notice," he said, "it was stated in the press that Sargent was on a Sunday shooting expedition when the accident occurred. This is incorrect. The young man was brought up to strictly observe the Sabbath, and I am pleased to say that during the several months he was in my party this summer he was always loyal to his principles. On the occasion of the accident he and a companion were hunting on Saturday afternoon and evening, and got so far from the camp that return was impossible till daylight broke on Sunday morning, when he was returning to a temporary camp to await the motor launch which was to call for the two at noon on Sunday."

In removing the gun from the canoe in some way the weapon was accidentally discharged. The shot entered the middle of the left arm in front and passed out along his left side, missing apparently the bone and greater arteries. With great presence of mind Sargent took out his heavy boot lace and knotted it with his mouth, and put on a tourniquet to stop the bleeding.

On Sunday night at 7 o'clock Cooney, another member of the party, who had accompanied the unfortunate lad on his hunting expedition, came to Whaletown overland and reported the accident. Mr. Coates states that great commendation is due to Dr. Walter Kennedy, of the Presbyterian mission launch Narda, for his heroic effort in setting first aid to the injured, through miles of downfallen timber and thickets. He travelled from nine in the evening until three in the morning to reach the wounded man. After the doctor had dressed the wound and made Sargent

CIVIC NOTICE

RE MUNICIPAL ELECTION, 1913.

The attention of persons desiring to qualify as "HOUSEHOLDERS" or "HOLDERS OF TRADE LICENSES" to vote at the Municipal Election to be held on the 2nd Thursday of January, 1913, is drawn to Section 8 of the "Municipal Elections Act," which provides that "in the case of the holder of a Trade License, or in the case of a Householder, he, or she, shall during the month of October in each year, make and cause to be delivered to the Clerk of the Municipality, a Statutory Declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking affidavits in the Supreme Court, Justice of the Peace, or

Notary Public, in form, and to the effect of Form 1 in the schedule to the said Act in the case of the holder of a trade license, and of Form 2 in said schedule in the case of a householder."

"HOUSEHOLDER" shall extend to and include any person of the full age of 21 years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the Municipality from the first day of January of the current year, and who shall, unless exempted by the provision of the proviso at the end of subsection (a) of Section 8 of the Municipal Act (which exempts certified efficient militiamen and persons over the age of 65 years from paying road tax), have paid directly to the Municipality all rates, taxes or assessments, which are not chargeable on land, which rates, taxes or assessments so paid shall amount to not less than two dollars, due to the municipality for the current year, other than water rates or taxes, or license fees for dogs."

Section 9 of the said Act further provides that "No declaration shall be accepted by the Clerk of a City Municipality unless it be delivered within 60 hours after it is made."

Section 5 further provides that "No person who is not a British subject shall have his name placed upon any municipal list of voters."

Forms of declaration may be obtained and the necessary declarations made at the office of the City Assessor, 2nd floor, City Hall, Douglas street.
WELLINGTON J. DOWLER, C. M. C.
Victoria, B. C., October 1st, 1912.

CITY OF DUNCAN.

Applications are invited for the post of Engineer for the Municipal Temporary Electric Light Generating Plant for the City of Duncan.
Applicants to state age, experience and salary required.
The plant that will first be used will be

A Fairbanks-Morse Electric Horizontal Oil Engine of 25 h. p.
Sealed applications, endorsed on the outside of the envelope "Engineer," to be in my hands not later than 4 p. m., Monday, October 7th.

The successful applicant will probably be required to commence his duties about November 1st.

JAMES GREIG, C. M. C., City of Duncan.

CITY OF DUNCAN, VANCOUVER ISLAND, B. C.

Tenders will be received by the undersigned, up to the 1st December next, for the purchase of the following Debentures of the City of Duncan, Vancouver Island, B. C.:

Electric Light and Power Loan By-Law, \$5,000.00 at 5 per cent, twenty-five years.
Waterworks By-Law, \$5,000.00 at 5 per cent, twenty-five years.

Schools Loan By-Law, \$15,000.00 at 5 per cent, fifteen years.

Streets Loan By-Law, \$10,000.00 at 5 per cent, ten years.

The Debentures will be of the amount of \$500.00 each, with one for such less sum as will complete the authorized issue. Interest payable half yearly.

The present indebtedness of the city is "nil."

The assessed value of land and improvements is \$1,337,530.
Population about 1,300, but increasing rapidly.
The rate of the tax for 1912 was 7 mills for the General Rate and 3 mills for School purposes.

JAMES GREIG, C. M. C., City of Duncan, Vancouver Island, B. C.
